Item 138	First Year	Second Year
For basic appropriation for *teachers'* salaries *	$44,655,500	$50,975,150

It is provided that in the apportionment of this sum no county or city shall receive less than the amount prescribed by § 135 of the Constitution of Virginia.

It is provided, further, that the total of this sum, including the aforementioned apportionment, and the sums set forth in Items 139 and 140 shall be apportioned to the public schools by the State Board of Education under rules and regulations promulgated by it to effect the following provisions:

a. The apportionment shall be on the basis of the following amounts, as applicable, per State aid teaching position:

(1) in the first year of the biennium, $1,650 for each such position, plus an additional $150 for each such position which is occupied by a teacher having a collegiate professional certificate (or equivalent) and seven or less years of experience or by a teacher having a normal professional certificate (or equivalent) and eleven or less years of experience; and,

(2) in the second year of the biennium, $1,750 for each such position, plus an additional $300 for each such position which is occupied by a teacher having a collegiate professional certificate (or equivalent) and seven or less years of experience or by a teacher having a normal professional certificate (or equivalent) and eleven or less years of experience.

It is provided, however, that no payment from this item for a State aid teaching position shall exceed two-thirds of the salary paid the incumbent of a State aid teaching position when the total salary of such incumbent is less than the amount of State aid available for each State aid teaching position. For purposes of this act, "State aid teaching position" is defined as one teaching position for each thirty (30) pupils in average daily attendance in the elementary grades and one teaching position for each twenty-three (23) pupils in average daily attendance in the high school grades. The average daily attendance figures used in the apportionment of this item shall be those of the school year falling within the fiscal year for which the appropriation is made.

b. No apportionment from this item shall be made to any county or city for State aid teaching positions in excess of the number of such positions in which teachers are actually employed; provided, however, that in exceptional circumstances and in the discretion of the State Board of Education, a county or city may employ fewer teachers than the number of assigned State aid teaching positions allotted in accordance with paragraph a.

c. No apportionment from this item shall be made to any county or city except for payment of salaries of teachers or other instructional personnel in the public schools, or for payment of tuition in lieu of teacher or other instructional salaries under rules and regulations of the State Board of Education.

d. The annual expenditure of funds, derived from local sources, for instruction in the public schools shall not be less than the annual expenditure made from local sources for such instruction for the second school year in the previous biennium. However, if a county or city has established and maintains a salary schedule for teachers and other instructional personnel satisfactory to the State Board of Education, the expenditure, derived from local funds, for the salaries of teachers and other instructional personnel may be reduced below such expenditures for the second school year in the previous biennium, provided the reduction and the amount of reduction are approved by the State Board of Education. Also, a county or city may reduce such expenditure in exceptional circumstances due to a substantial loss in average daily attendance of pupils in the county or city, or in other exceptional local conditions, provided the reduction and the amount of reduction are approved by the State Board of Education.

e. The county or city shall pay from local funds at least thirty per cent (30%) of the total amount expended for salaries of teachers and other instructional personnel. However, a county or city shall be permitted by the State Board of Education to pay not less than twenty per cent (20%) of such amount if the county or city provides a levy or cash appropriation or a combination of both for schools which, when converted to an equivalent true tax rate, is as great as the average of all county or all city levies or cash appropriations or a combination of both such levies and appropriations for schools converted to an equivalent true tax rate; in converting a levy or cash appropriation or a combination of both for schools to an equivalent true tax rate, ratios of assessed valuations to true values used shall be such ratios determined by the State Tax Commissioner for the tax year 1950. For such counties or cities, the State Board of Education shall determine the per cent of local contribution, in no instance less than twenty per cent (20%) of the total amount expended for salaries of teachers and other instructional personnel.

f. A minimum salary schedule for teachers and other instructional personnel, satisfactory to the State Board of Education and approved by the Governor, shall be put into effect.

g. If any municipality annexes any portion of any county or counties, the State Board of Education shall make such equitable adjustment of the funds which would otherwise have gone to either as is in its opinion justified by the peculiar condition created by such annexation, and order distribution of such funds according to its findings. This provision shall not apply if a court of competent jurisdiction makes such adjustment and orders such distribution.

h. Allotments of funds from this item and from Items 139 and 140 beyond the constitutional appropriation shall be paid to a county or city only after

The average daily attendance data for such county, city or town for the previous year may be used in making this adjustment.

It is further provided that in the event the total of the sums set forth in Items 138, 139, and 140 exceeds the amount necessary to make the apportionments required by this item, any balance remaining may, upon request by the State Board of Education, and with the prior written approval of the Governor, be transferred and added to the sums set forth in Item 142 or in Item 148, or in both.

a. It is provided that the State Board of Education shall pay from the sums provided by this item to each county and city an amount equal to that paid for the year ending June 30, 1958, from Item 137, Chapter 716, Acts of Assembly of 1956.

b. It is provided further that the State Board of Education shall make no distribution from this item to any county or city which has not first complied with the conditions stated in paragraphs c-h, inclusive, of Item 138 and in paragraph b of Item 142.

c. If the sums available for this item as listed herein or by authorized transfer hereto are not sufficient for the purposes described, the distribution of such sums shall be made on a pro rata basis. If the sums available for this item as listed herein exceed the amount required for the purposes described, any balance remaining may, upon request of the State Board of Education, with the prior written approval of the Governor, be transferred and added to the sums set forth in Item 138, or in Item 142, or in both.

The purpose clause of the articles of incorporation shall recite that the purposes for which the corporation is formed are to stimulate and promote the business prosperity and economic welfare of this State and its citizens; to encourage and assist through financial aid, advice, technical assistance and other appropriate means the location of new businesses and industries and the rehabilitation, improvement and expansion of existing businesses and industries throughout the State; and in furtherance of such purposes, to cooperate with the Virginia Department of Conservation and Economic Development and with other organizations, public and private.

§ 13.1-143. Every corporation created under this act shall have as part of its corporate name or title the words "Industrial Development".

§ 13.1-144. The articles of incorporation shall not be issued by the Commission unless approved by the Governor in writing. Such approval shall not be given by the Governor until he first shall have sought the advice of the Board of Conservation and Economic Development.

§ 13.1-147. Any financial institution is authorized to become a member of a corporation by making application to the board of directors on such form and in such manner as the board of directors may require and membership shall become effective upon acceptance of such application by said board. Membership shall be for the duration of the corporation, provided, however, that upon written notice given to the corporation two years in advance, a member may withdraw from membership at the expiration date of such notice and shall not thereafter be obligated to make any loans to the corporation.

Each such member shall make loans to the corporation as and when called upon by it to do so, upon such terms and conditions as shall be approved from time to time by the board of directors, subject to the following conditions:

(a) All loans shall be evidenced by negotiable instruments of the corporation and shall bear interest at a rate of not less than one-half of one per cent in excess of the rate of interest determined by the board of directors to be the prime rate on unsecured commercial loans as of the date of the loan.

(b) All loan limits shall be established at the thousand dollar amount nearest to the amount computed in accordance with the provisions of this section.

(c) No loan to a development corporation shall be made if immediately thereafter the total amount of the obligations of the said corporation would exceed ten times the amount then paid in on its outstanding capital stock.

(d) The total amount outstanding at any one time on loans to a development corporation made by any member shall not exceed the following limit, to be determined as of the time such member becomes a member, on the basis of figures contained in the most recent year-end statement furnished by such member to State or federal supervisory authorities, as the case may be: Two per cent of the capital and permanent surplus of banks and trust companies; one per cent of the total outstanding loans made by a savings and loan association, or an industrial loan company; one per cent of the capital and unassigned surplus of stock insurance companies, except fire insurance companies; one per cent of the unassigned surplus of mutual insurance companies, except fire insurance companies; one-tenth of one per cent of the assets of fire insurance companies.

All loan limits shall be recomputed as of the first day of January of each even-numbered year, but no member's loan limit shall be increased as the result of such recomputation without the consent of such member.

(e) Each call for loans made by the corporation shall be prorated among the members of the corporation in substantially the same proportion that the adjusted loan limit of each member bears to the aggregate of the adjusted loan limits of all members. The "adjusted loan limit" of a member shall be the amount of such member's loan limit, reduced by the balance of outstanding loans made by such member to the corporation and the investment of such member in capital stock of the corporation at the time of such call.

(f) A member of a corporation created under this article shall not be a member of more than one such corporation.

§ 13.1-148. Each share of stock of a corporation shall have a par value of one hundred dollars, and shall be issued for cash. No preferred stock shall be issued.

The rights given by this chapter to stockholders to attend meetings and to receive notice thereof and to exercise voting rights shall apply to

members as well as to stockholders of a corporation created hereunder. The voting rights of the members shall be the same as if they were a separate class of stockholders and stockholders and members shall in all cases vote separately by classes. A quorum at a meeting shall require the presence in person or by proxy of a majority of the holders of the voting rights of each class.

§ 13.1-149. The business and affairs of a corporation shall be conducted by a board of directors. The number of directors shall be a multiple of three. Two-thirds of the directors shall be elected by the members and one-third shall be elected by the stockholders. Any vacancy in the office of a director elected by the members shall be filled by the directors elected by the members and any vacancy in the office of director elected by the stockholders shall be filled by the directors elected by the stockholders.

§ 13.1-150. No amendment to the articles of incorporation shall be made which increases the obligation of a member to make loans to the corporation or which makes any change in the principal amount, interest rate, maturity date, or in the security or credit position of any outstanding loan made by a member to the corporation or which affects the right of a member to withdraw from membership or the voting rights of such member, without the consent of each member who would be affected by such amendment.

§ 13.1-151. Each year the corporation shall set apart as earned surplus not less than ten per cent of its net earnings for the preceding fiscal year until such surplus shall be equal in value to one-half of the amount paid in on the capital stock then outstanding. Whenever the amount of surplus so established shall become impaired, it shall be built up again to the required amount in the manner provided for its original accumulation.

§ 13.1-152. The rights given to stockholders under the provisions of §§ 13.1-5, 13.1-24, 13.1-80, 13.1-85 and 13.1-125 of this chapter shall apply to members as well as to stockholders of a corporation created hereunder.

§ 13.1-153. No corporation organized under the provisions of this article shall at any time be authorized to receive money on deposit. The corporation shall not deposit any of its funds in any banking institution unless such institution has been designated as a depository by a vote of a majority of the directors present at an authorized meeting of the board of directors, exclusive of any director who is an officer or director of the depository so designated.

§ 13.1-154. A corporation shall keep, in addition to the books and records required by § 13.1-47, a record showing the names and addresses of all members of the corporation and the current status of loans made by each to the corporation. Members shall have the same rights with respect to such books and records as are given to stockholders by § 13.1-47.

§ 13.1-155. Under no circumstances is the credit of the State pledged herein.

§ 13.1-156. The provisions of this article are severable, and if any of its provisions shall be held unconstitutional by any court of competent jurisdiction, the decision of such court shall not affect or impair any of the remaining provisions hereof.

[H 361]

Approved February 25, 1960

Be it enacted by the General Assembly of Virginia:

1. That § 14-133, as amended, of the Code of Virginia, be amended and reenacted as follows:

§ 14-133. Fees in civil cases for services performed by the judges or clerks of county courts, municipal courts and police justice courts, or by justices of the peace in the event any such services are performed by such justices in civil cases, shall be as follows, and, unless otherwise provided, shall be included in the taxed costs and shall not be refundable, except in case of error or as herein provided:

(1) For all court and justice of the peace services in each distress, detinue, interrogatory summons, unlawful detainer, civil warrant, notice of motion, garnishment, attachment issued, or other civil proceeding, $3.00 unless otherwise provided in this section, which shall include the fee prescribed by § 16.1-115. *No such fee shall be collected in any tax case instituted by any county, city or town.*

The judge or clerk shall collect the foregoing fee at the time of issuing process. Any justice of the peace or other issuing officer shall collect the foregoing fee at the time of issuing process. He may deduct therefrom a justice of the peace (or other issuing officer) fee of $1.25 for his services in the case. He shall remit the remainder promptly to the court to which such process is returnable, or to its clerk. Any sheriff, city sergeant, or other officer serving process shall collect the foregoing court fee before serving any notice of motion of judgment, which fee he shall remit on or before the return day of such motion to the court to which such motion is returnable, or to its clerk, except that no fee shall be collected in tax cases until after process has been served. When no service of process is had as to any defendant served by notice of motion for judgment, the officer serving process shall return such notice of motion and the court fee collected by him to the plaintiff or his counsel. The foregoing court fee shall not include the service fee of any sheriff, city sergeant, or other officer serving process, but the person issuing process shall accept and forward any such service fees when tendered at the time of issuing process. When no service of process is had on a defendant named in any civil process other than a notice of motion for judgment, such process may be reissued once by the court or clerk at the court's direction by changing the return day of such process, for which service by the court or clerk there shall be no charge; *provided, however, reissuance of such process shall be within three months after the original return day and regardless of whether the original process was issued before or after this act takes effect.*

(2) For granting each continuance except the first of any warrant or other proceeding pending before the court, fifty cents, but if the continuance is at the instance and for the convenience of the judge, the fee shall not be charged. Such fee shall be paid by the party requesting the continuance, and shall not be taxed as a part of the costs.

The fees prescribed in this section shall be the only fees charged in civil cases for services performed by such judges and clerks, and when the services referred to herein are performed by justices of the peace such fees shall be the only fees charged by such justices for the prescribed services.

An Act to amend and reenact §§ 58-839 and 58-844 of the Code of Virginia, relating to the fixing and making of county, city, town, and district levies by governing bodies; to provide that such levies shall be fixed or made not later than a regular or called meeting in June; and to provide that no funds collected from general levies shall be considered available, allocated, or expended for any purpose until there has been an appropriation of funds for that purpose by the governing body; and to add § 58-846.1 to the Code of Virginia, to provide that notice shall be given before any local tax levy shall be increased in any county, city, town or district.

[S 28]

Approved April 24, 1959

Be it enacted by the General Assembly of Virginia:

1. That §§ 58-839 and 58-844 of the Code of Virginia be amended and reenacted and that § 58-846.1 be added to the Code of Virginia as follows:

§ 58-839. The board of supervisors or other governing body of each county shall, at their regular meeting in the month of January in each year, or as soon thereafter as practicable not later than a regular or called meeting in * *June,* fix the amount of the county and district levies for the current year, shall order the levy on all property within the county segregated by law for local taxation, and shall order the levy on the real estate and tangible personal property of public service corporations based upon the assessment fixed by the State Corporation Commission, and certified by it to the board of supervisors or other governing body, both with respect to location and valuation; any such governing body may provide that if any taxpayer owns tangible personal property of such small value that the local levies thereon for the year result in a tax of less than one dollar, such property may be omitted from the personal property book and no assessment made thereon. *

The making of a general county levy or the imposition of other taxes or the collection of such levy or taxes shall not constitute an appropriation nor an obligation or duty to appropriate any funds by the board of supervisors or other governing body of any county for any purpose, expenditure or contemplated expenditure. The laying or making of a levy in an amount sufficient to cover or pay all estimated and contemplated expenditures for the fiscal year shall not be construed as imposing any obligation or duty on the board of supervisors or other governing body to appropriate any amount whatsoever. No part of the funds raised by the general county levies or taxes shall be considered available, allocated or expended for any purpose until there has been an appropriation of funds for that expenditure or purpose by the board of supervisors or other governing body either annually, semiannually, quarterly, or monthly. There shall be no mandatory duty upon the board of supervisors or other governing body of any county to appropriate any funds raised by general county levies or taxes except to pay the principal and interest on bonds and other legal obligations of the county or district and to pay obligations of the county or its agencies and departments arising under contracts executed or approved by the board of supervisors or other governing body, unless otherwise specifically provided by statute. Any funds collected and not expended in any fiscal year shall be carried over to the succeeding fiscal years and shall be available for appropriation for any governmental purposes in those years.

to be made up and entered on their journals an account of all sums lawfully chargeable on the city or town which ought to be paid within one year and order a city or town levy of so much as in their opinion is necessary to be raised in that way in addition to what may be received for licenses and from other sources; any such governing body may provide that if any taxpayer owns tangible personal property of such small value that the local levies thereon for the year result in a tax of less than one dollar, such property may be omitted from the personal property book and no assessment made thereon. The levy so ordered may be upon the persons in the city or town above the age of twenty-one years, not exempt by law from the payment of the State capitation tax, and upon any property therein subject to local taxation and not expressly segregated to the State for purposes of State taxation only.

The making of a general city or town levy or imposition of other taxes or the collection of such levy or taxes shall not constitute an appropriation nor an obligation or duty to appropriate any funds by the council of any city or town for any purpose, expenditure, or contemplated expenditure. The laying or making of a levy in an amount sufficient to cover or pay all estimated and contemplated expenditures for the fiscal year shall not be construed as imposing any obligation or duty on the council to appropriate any amount whatsoever. No part of the funds raised by the general city or town levies or taxes shall be considered available, allocated, or expended for any purpose until there has been an appropriation of funds for that expenditure or purpose by the council either annually, semiannually, quarterly, or monthly. There shall be no mandatory duty upon the council of any city or town to appropriate any funds raised by general city or town levies or taxes except to pay the principal and interest on bonds and other legal obligations of the city or town and to pay obligations of the city or town or its agencies and departments arising under contracts executed or approved by the council, unless otherwise specifically provided by statute. Any funds collected and not expended in any fiscal year shall be carried over to the succeeding fiscal years and shall be available for appropriation for any governmental purposes in those years. This section shall be applicable to all cities and towns in the State and the provisions of any charter of any city or town inconsistent or in conflict with this section shall be inoperative to the extent of such inconsistency or conflict.

§ 58-846.1. Before any local tax levy shall be increased in any county, city, town, or district, such proposed increase shall be published in a newspaper having general circulation in the locality affected at least fifteen days before the increased levy is made and the citizens of the locality shall be given an opportunity to appear before, and be heard by, the local governing body on the subject of such increase.

sion 1956, and Chapter 7.1 of Title 22 of the Code, consisting of §§ 22-115.1 through 22-115.21, relating to grants for education of children in private schools.

[S 32]

Approved April 24, 1959

Be it enacted by the General Assembly of Virginia:

1. § 1. The General Assembly, mindful of the need for a literate and informed citizenry, hereby declares that it is the policy of this Commonwealth to encourage the education of all of the children of Virginia. In furtherance of this objective, the General Assembly finds that in addition to providing instruction in the public schools, it is desirable and in the public interest that scholarships should be provided from the public funds of the State and localities for the education of the children in nonsectarian private schools and in public schools located outside of the locality where the children reside.

§ 2. The governing body of each county, city or town, if the town be a separate school district approved for operation, shall appropriate out of the general tax revenues of the locality and out of funds made available to the locality for such purpose by the State such amounts as may be necessary to provide scholarships of at least the minimum amount specified by § 5 of this Act for children of school age residing in such locality within the meaning of § 22-218 of the Code of Virginia but who attend nonsectarian private schools in or outside such locality or public schools located outside such locality.

§ 3. The funds made available for such scholarships shall be expended by the local school boards pursuant to rules and regulations promulgated by the State Board of Education. Such funds shall be appropriated and recorded separately from funds made available to the school board for the maintenance and operation of the public schools and no funds appropriated for scholarships shall be used or be available to be used for the maintenance or operation of the public schools.

§ 4. The State Board of Education is hereby authorized and directed to promulgate rules and regulations for the administration of this Act. Such rules and regulations may prescribe the minimum academic standards that shall be met by any nonsectarian private school attended by a child to entitle such child to a scholarship, but shall not deal in any way with the requirements of such school concerning the eligibility of pupils who may be admitted thereto. The State Board of Education may also provide for the payment of such scholarships in installments and for their proration in the case of children attending school less than a full school year.

§ 5. The amount of the minimum scholarship to be provided out of joint State and local funds for each child for a full school year shall be two hundred and fifty dollars or the amount equal to the actual cost of tuition at the school attended by such child or the total cost of operation, excluding debt service and capital outlay, per pupil in average daily attendance in the public schools of the locality providing such scholarships, as determined by the Superintendent of Public Instruction for the school year 1958-1959, whichever of such three sums is the lowest. In the case of a locality in which public schools were closed during the school year 1958-1959 under the provisions of Chapter 68, Acts of Assembly, Extra Session 1956, the cost of operation for the school year 1957-1958 shall be used in making such computation. The locality shall contribute out of local tax revenues for each such scholarship provided for a child residing in such locality the amount obtained by multiplying the amount

of the scholarship by the percentage which the expenditure out of local funds is of the total such cost per pupil in average daily attendance in such locality for the school year 1958-1959 or 1957-1958 as the case may be. The balance of such minimum scholarship shall be provided out of State funds appropriated to the locality for such purpose. The governing body of each county, city and town, if the town be a separate school district approved for operation, may appropriate from local revenues additional sums for the purpose of supplementing such minimum scholarships. The amount of the scholarship shall be paid to the parent or guardian of, or the person standing in loco parentis to, the child. The local school board shall require the recipients of the scholarship funds to furnish receipts or other evidence showing that the funds were expended for the purpose for which the scholarships were granted.

§ 6. It shall be unlawful for any person to obtain, seek to obtain, expend, or seek to expend, any scholarship funds for any purpose other than in payment of or reimbursement for the tuition costs for the attendance of his child or ward at a nonsectarian private school in or outside the locality making such scholarship grant or a public school located outside such locality. A violation of this section shall, except for offenses punishable under § 18-237 of the Code, constitute a misdemeanor and be punished as provided by law.

§ 7. If a locality fails to provide the scholarship funds under the provisions of this Act for those entitled thereto, the State Board of Education shall authorize and direct the Superintendent of Public Instruction, under rules and regulations of the State Board of Education, to provide for the payment of such scholarships on behalf of such locality. In such event the Superintendent of Public Instruction shall, at the end of each month, file with the State Comptroller and with the school board and the governing body of such locality a statement showing all disbursements so made on behalf of such locality, and the Comptroller shall from time to time as such funds become available deduct from other State funds appropriated for distribution to such locality the amount required to reimburse the State for expenditures incurred under the provisions of this section, provided that in no event shall any funds to which such locality may be entitled under the provisions of Title 63 of the Code or for the operation of public schools be withheld under the provisions of this section; and provided further that, except out of funds appropriated for distribution to such locality to assist it in providing the minimum scholarships under this Act, no greater amount shall be withheld on account of any scholarship paid directly by the State under the provisions of this section than the amount of the locality's share of the minimum scholarship.

2. That Chapter 56, Acts of Assembly, Extra Session 1956, and Chapter 7.1 of Title 22 of the Code of Virginia, consisting of §§ 22-115.1 through 22-115.21, and all amendments thereof, are hereby repealed.

Approved April 24, 1959

Be it enacted by the General Assembly of Virginia:

1. That § 46.1-65, as amended, of the Code of Virginia, be amended and reenacted as follows:

§ 46.1-65. (a) Except as provided in § 46.1-66 counties, incorporated cities and towns may levy and assess taxes and charge license fees upon motor vehicles, trailers and semitrailers; provided that no such taxes and license fees shall be assessed or charged by any county upon vehicles of owners who are residents of any town located in such county which constitutes a separate school district approved for operation when such vehicles are already subject to town license fees and taxes. The amount of the license fee or tax imposed by any county, city or town upon any class of motor vehicles, trailers or semitrailers shall not be greater than the amount of the license tax imposed by the State on vehicles of like class. Such license fees and taxes shall be imposed in such manner, on such basis, and for such periods, as the proper authorities of such counties, cities and towns may determine, and subject to proration for fractional periods of years in the manner prescribed in § 46.1-165.

(b) The revenue derived from all county, city or town taxes and license fees imposed upon motor vehicles, trailers or semitrailers shall be

(c) A county, incorporated city, or town may require that no motor vehicle, trailer or semitrailer shall be locally licensed unless and until the applicant for such license shall have produced satisfactory evidence that all personal property taxes upon the motor vehicle, trailer or semitrailer to be licensed have been paid which have been properly assessed or are assessable against the applicant by the county, incorporated city or town.

(d) If in any county imposing license fees and taxes under this section, a town therein imposes like fees and taxes upon vehicles of owners resident in such town, the owner of any vehicle subject to such fees or taxes shall be entitled, upon such owner displaying evidence that he has paid the amount of such fees or taxes, to receive a credit on the fees or taxes imposed by the county to the extent of the fees or taxes he has paid to such town. may provide for such technical and clerical assistance as may be necessary or advisable and for the payment of any other expenses that may be properly incident thereto. The annual assessments shall be completed by the assessor by the thirty-first day of December of the year in which they are made.

§ 2. All such real estate shall be assessed at its fair market value and the taxes for each year on such real estate shall be extended on the basis of the last assessment made prior to such year, subject to such changes as may have been lawfully made.

§ 3. The council of any such city may provide that all duties now devolved upon the commissioner of the revenue of such city with respect to the assessment of real estate shall be transferred to and devolve upon the assessor appointed pursuant to this act, and the assessor in such city shall prepare the land books and extend the taxes thereon and perform all the duties required by law to be performed by the commissioner of the revenue in respect to real estate assessments. Such board of equalization shall have and may exercise the power to revise, correct and amend any assessment of real estate made by the assessor in the year in which they serve, and to that end shall have all the powers conferred upon boards of equalization, by Chapter 19 of Title 58 of the Code of Virginia, and any acts amendatory thereof and supplemental thereto. Notwithstanding such chapter, however, the board of equalization may adopt any regulations providing for the oral presentation, without formal petitions or other pleading or requests for review, and looking to the further facilitation and simplification of proceedings before the board.

§ 5. Any person aggrieved by any assessment made by the assessor or the board of equalization may apply for relief in the manner provided by § 58-1145 of the Code of Virginia.

§ 7. All acts and parts of acts relating to the assessment of real estate in cities not in conflict with the provisions of this act shall apply to any assessment made pursuant to this act.

2. All acts and parts of acts in conflict with this act are repealed to the extent of such conflict.

(d) Upon application by the board of directors when it is established that circumstances make it impossible to obtain a representative vote by stockholders on the question of dissolution and that the continuation of the business of the corporation is not in the interest of the stockholders but it is desirable in their interest that the assets and business be liquidated.

(e) When the Commission has instituted a proceeding for the involuntary dissolution of a corporation and entered an order finding that the corporation should be dissolved but that liquidation of its business and affairs should precede the entry of an order of dissolution.

(f) After dissolution, *pursuant to the provisions of this Act or any laws of this State in effect at any time prior to the effective date of this Act,* upon the application of any person, for good cause, with regard to any assets or business that may remain and the jurisdiction conferred by this clause may also be exercised by any such court in any city or county where any property may be situated whether of a domestic or of a foreign corporation that has been dissolved.

It shall not be necessary to make directors or stockholders parties to any such action or proceeding unless relief is sought against them personally.

(e) That the address of its registered office and the address of the business office of its registered agent are identical.

The Commission, in the case of domestic corporations, shall mail one copy of the statement to the clerk in whose office deeds are recorded in the city or county in which the then principal office is located, and he shall record it in a book for the recordation of charters. In the event that a foreign corporation shall not have established a registered office and appointed a registered agent as required herein and service of process on such corporation is made on the clerk of the Commission as permitted by § 13.1-111, such service of process shall be valid but the clerk of the Commission shall deliver such process to the Secretary of the Commonwealth for disposition in accordance with § 13-216. The Commission shall mail notice of the provisions of this section to all corporations, domestic and foreign, listed in its records promptly after the effective date of this Act and, promptly after January 1, 1958, shall mail a further notice to all such corporations that have not then complied with the provisions of this section.

Be it enacted by the General Assembly of Virginia:

1. That § 23-19, as amended, of the Code of Virginia, be amended and reenacted as follows:

§ 23-19. (a) Every institution shall have power and is hereby authorized and empowered from time to time to execute its bonds in such aggregate principal amount as may be determined upon by its board and approved by the Governor. All such bonds shall be issued and sold through the Treasury Board which is hereby designated the issuing, sales, and paying agent of such institutions under this chapter. Such aggregate principal amount may include without limitation any engineering or inspection costs or legal or accounting expenses incurred by the institution in connection with the project for the erection of which such bonds are issued, and the cost of issuance of the bonds, including printing, engraving, advertising, legal and other similar expenses.

(b) Such bonds shall be authorized by resolution of the board, approved by the Governor, and may be issued in one or more series, shall bear such date or dates, mature at such time or times, bear interest at such rate or rates not exceeding six per centum per annum payable at such time or times, be in such denominations, be in such form, either coupon or registered, carry such registration privileges, be executed in such manner, be payable in such medium of payment, at such place or places, be subject to such terms of redemption, with or without premium, as such resolution or resolutions may provide. Such bonds may be sold at public or private sale for such price or prices as the board with the approval of the Governor shall determine, provided that the interest cost to maturity of the money received for any issue of such bonds shall not exceed six per centum per annum.

(c) Such bonds may be issued for the corporate purpose or purposes of the institution specified by § 23-17 hereof or to carry out the powers conferred on the institution by the preceding section hereof.

(d) Any resolution or resolutions authorizing such bonds may contain a provision, which shall be a part of the contract with the holders of such bonds as to

(1) Pledging any or all revenues of the institution derived directly or indirectly from the project for the erection of which the bonds are issued to secure the payment of such bonds, and the determination of the revenues and receipts to be derived directly or indirectly from the project for the erection of which the bonds are to be issued and the cost or expenses of the operation and maintenance thereof;

(2) The operation and maintenance of the project;

(3) The amount or amounts to be charged and collected as fees, rents or charges for or in connection with the use, occupations, products and/or services of the project or any services rendered therein, and the amount to be raised in each year thereby in revenues of any kind and the use and disposition of any or all such revenues;

(4) The setting aside of reserves or sinking funds, and the regulation and disposition thereof;

(5) Limitations on the right of the institution to restrict and regulate the use, occupation, products and/or services of the project, or the services rendered therein;

(6) Limitations on the purpose to which the proceeds of sale of any issue of bonds then or thereafter to be issued may be applied;

(7) Limitations on the issuance of additional bonds;

(8) The procedure, if any, by which the terms of any contract with holders of such bonds may be amended or abrogated, the amount of bonds the holders of which must consent thereto, and the manner in which such consent may be given; and

(9) Any other matter required by the United States of America or any federal agency as a condition precedent to or a requirement in connection with the obtaining of a direct grant or grants of money for or in aid of the erection of any project, or to defray or partially to defray the cost of labor and material employed in the erection of any project, or to obtain a loan or loans of money for or in aid of the erection of any project from the United States of America or any federal agency, provided such other matter is approved by the Governor.

(e) The power and obligation of an institution to pay any bonds issued under this chapter shall be limited. Such bonds shall be payable only from the revenues and receipts derived directly or indirectly from the project for the erection of which the bonds are issued. Such bonds shall in no event constitute an indebtedness of the institution, excepting to the extent of the collection of such revenues and receipts and such institution shall not be liable to pay such bonds or interest thereon from any other funds; and no contract entered into by the institution pursuant to subdivision (b) of this section shall be construed to require the costs or expenses of operation and maintenance of the project for the erection of which the bonds are issued to be paid out of any funds other than the revenues and receipts derived directly or indirectly from such project. The revenues and receipts to be deemed as derived directly or indirectly from the project for the erection of which the bonds are to be issued and the costs and expenses of the operation and maintenance thereof shall be determined by resolution of the board, approved by the Governor. (h) In any case in which an institution shall have obtained a loan for or in aid of the erection of any project from the United States of America or any federal agency, which loan requires the establishment of a debt service reserve, the institution, with the consent of the Governor, may deposit securities in a separate collateral account in an amount equal to the required debt service reserve, which securities shall be pledged to meet the debt service requirements only if the pledged revenues from the project become insufficient for such purpose. The face value of United States Government securities and the market value of all other securities shall be deemed to be the value of any securities so deposited. Nothing herein shall be construed as * *prohibiting* repayment of any portion of such loan from income derived from the securities so deposited. No

[S 46]

Approved April 27, 1959

Be it enacted by the General Assembly of Virginia:

1. That § 38.1-381, as amended, of the Code of Virginia, be amended and reenacted as follows:

§ 38.1-381. (a) No policy or contract of bodily injury liability insurance, or of property damage liability insurance, covering liability arising from the ownership, maintenance or use of any motor vehicle, shall be issued or delivered in this State to the owner of such vehicle, or shall be issued or delivered by any insurer licensed in this State upon any motor vehicle then principally garaged or principally used in this State, unless it contains a provision insuring the named insured and any other person responsible for the use of or using the motor vehicle with the consent, expressed or implied, of the named insured, against liability for death or injury sustained, or loss or damage occasioned within the coverage of the policy or contract as a result of negligence in the

operation or use of such vehicle by the named insured or by any such person.

(b) Nor shall any such policy or contract be so issued or delivered unless it contains an endorsement or provisions undertaking to pay the insured all sums which he shall be legally entitled to recover as damages from the owner or operator of an uninsured motor vehicle, within limits which shall be no less than the requirements of § * *46.1-1(8)*, as amended from time to time, of the Code herein. Such endorsement or provisions shall also provide for no less than five thousand dollars coverage for injury to or destruction of the property of the insured in any one accident but may provide an exclusion of the first two hundred dollars of such loss or damage.

(c) As used in this section, the term "bodily injury" shall include death resulting therefrom; the term "insured" as used in subsections (b), (d), (f), and (g) hereof, means the named insured and, while resident of the same household, the spouse of any such named insured, and relatives of either, while in a motor vehicle or otherwise, and any person who uses, with the consent, expressed or implied, of the named insured, the motor vehicle to which the policy applies and a guest in such motor vehicle to which the policy applies or the personal representative of any of the above; and the term "uninsured motor vehicle" means a motor vehicle as to which there is no (i) bodily injury liability insurance and property damage liability insurance both in the amounts specified by § * *46.1-1(8)*, as amended from time to time, or (ii) there is such insurance but the insurance company writing the same denies coverage thereunder, * (iii) there is no bond or deposit * *of money or* securities in lieu of such bodily injury and property damage liability insurance *and (iv) the owner of such motor vehicle has not qualified as a self-insurer under the provisions of § 46.1-395.* A motor vehicle shall be deemed to be uninsured if the owner or operator thereof be unknown; provided that recovery under the endorsement or provisions shall be subject to the conditions hereinafter set forth.

(d) If the owner or operator of any motor vehicle which causes bodily injury or property damage to the insured be unknown, the insured or someone on his behalf, in order for the insured to recover under the endorsement, shall report the accident as required by § * *46.1-400*, unless such insured is reasonably unable to do so, in which event the insured shall make such report as soon as reasonably practicable under the circumstances.

(e) If the owner or operator of any vehicle causing injury or damages be unkown, an action may be instituted against the unknown defendant as "John Doe" and service of process may be made by delivery of a copy of the motion for judgment or other pleadings to the clerk of the court in which the action is brought and service upon the insurance company issuing the policy shall be made as prescribed by law as though such insurance company were a party defendant. The insurance company shall have the right to file pleadings and take other action allowable by law in the name of John Doe.

(e) (1) Any insured intending to rely on the coverage required by paragraph (b) of this section shall, if any action is instituted against the owner or operator of an uninsured motor vehicle, serve a copy of the process upon the insurance company issuing the policy in the manner prescribed by law, as though such insurance company were a party defendant; such company shall thereafter have the right to file pleadings and take other action allowable by law in the name of the owner or operator of the uninsured motor vehicle or in its own name; provided, however, that nothing in this paragraph shall prevent such owner or operator from em-

ploying counsel of his own choice and taking any action in his own interest in connection with such proceeding.

This paragraph shall not apply to any cause of action arising prior to the effective date of this amendment.

(f) An insurer paying a claim under the endorsement or provisions required by paragraph (b) of this section shall be subrogated to the rights of the insured to whom such claim was paid against the person causing such injury, death or damage to the extent that payment was made; provided that the bringing of an action against the unknown owner or operator as John Doe or the conclusion of such an action shall not constitute a bar to the insured, if the identity of the owner or operator who caused the injury or damages complained of becomes known, from bringing an action against the owner or operator theretofore proceeded against as John Doe, provided that any recovery against such owner or operator shall be paid to the insurance company to the extent that such insurance company paid the named insured in the action brought against such owner or operator as John Doe, except that such insurance company shall pay its proportionate part of any reasonable costs and expense incurred in connection therewith including reasonable attorneys' fees. (h) The provisions of paragraphs (a) and (b) of this section shall not apply to any policy of insurance to the extent that it covers the liability of an employer under any workmen's compensation law.

§ 2. The placement of pupils in accordance with the rules and regulations adopted by the State Board of Education shall be made by school boards which are hereby authorized to fix attendance areas and adopt such other additional rules and regulations, not inconsistent with the rules and regulations of the State Board, relating to the placement of pupils as may be to the best interest of their respective school districts and the pupils therein.

§ 3. School boards are authorized to designate agents who may be division superintendents, or other school officials or employees, to make all initial placements in the manner required by this Act. All such placements must be made not later than April 15 preceding the school year to which placements are to be applicable and shall become final within ten days after notices thereof have been mailed to the last known address of the parents, guardians or other persons having custody of the pupils so placed and copies thereof delivered by mail, or otherwise, to the office of the principal of the school in which the pupil has been placed. The mailing of the notices of placement as required herein shall be prima facie evidence of receipt of same.

Parents, guardians or other persons having custody of pupils in the public school system are hereby required to notify their school board of any change of address or residence. The placement of any pupil whose parent, guardian or other person fails to so notify his board shall be final.

Any child who has not previously attended the public schools, any child whose residence has been moved from a county, city or town in which such child formerly attended school and any child who wishes to attend a school other than the school which he attended the preceding school year shall not be eligible for placement in a particular school unless application is made therefor, on or before April 5 preceding the school year to which the placement requested is to be applicable, by the parent, guardian or other person having custody of such child to the division superintendent having control of the school to which such child seeks admission. Such application shall be in writing on forms provided therefor by the State Board of Education and shall set forth the relationship of the applicant to the child and such other information as may be required by the State Board or requested by the school board. The action of the school board, or its representative, in making the placement of any pupil, whose parent, guardian or other person having custody of such pupil fails to make application within the time required herein, shall be final.

§ 4. If any parent, guardian, or other person having custody of a pupil, shall feel aggrieved by the placement of such pupil in a particular school under the provisions of § 3 or § 10 of this act then such parent, guardian, or other person may, at any time prior to the placement becoming final, make application in writing to the school board for a review of such action, setting out therein the relationship of the applicant to the pupil and the specific reasons why such pupil should not attend the school in which placed and also setting out the particular reasons why such pupil should be placed in some other school to be named in such application. The school board shall review the initial placement within twenty days after receipt of such application for review. In making the review the school board shall have the authority to examine all records, files and other data pertinent to a consideration of the proper placement of the pupil involved, and shall have the further authority to require any person, including the applicant and the pupil, to appear and present evidence concerning the placement. The applicant shall be notified of the time and place of review and given the opportunity to appear if he so requests in his application. After review, the local board shall determine whether

the placement sought in such application should be allowed and shall promptly enter an order either affirming the initial placement or changing the same. All such orders shall be entered on or before May 20 preceding the school year to which they are applicable and copies thereof furnished the applicants.

§ 5. The State Board of Education shall hear appeals taken under the subsequent provisions of this act with respect to the placement of pupils made by school boards and for that purpose is hereinafter sometimes referred to as the Board of Appeals. Whenever the words "Board of Appeals" are used in this act, they shall mean the State Board of Education.

The members of the State Board of Education shall receive as compensation for their services under the provisions of this act a per diem of twenty-five dollars for each day actually spent in the performance of such duties and shall be entitled to reimbursement for their necessary expenses incurred in connection therewith.

§ 6. The Board of Appeals may retain counsel and designate, appoint and employ such agents as it may deem desirable and necessary in the administration of its duties. It may designate any of its members or agents to hold the hearings hereinafter provided for and take testimony and submit recommendations in any and all cases referred to them by it. The Board of Appeals, or any member thereof, and any of its agents shall have authority to administer oaths to those who appear before it, any member thereof, or any of its agents in connection with the administration of its duties. The Board of Appeals, or any member thereof, and any of its agents shall also have the authority to issue subpoenas in the name of the Commonwealth to compel the attendance of witnesses and the production of documents. All such subpoenas shall be served by the sheriff, sergeant, constable, or any deputy thereof, of the county, city or town to which the same is directed. Should any person fail or refuse to obey any subpoena so issued, any court of record of the Commonwealth shall have jurisdiction, upon application of the Board of Appeals, a member thereof or its agent, to compel such person to appear before the Board of Appeals, or any member or agent, and give testimony or produce documents as ordered. Should any person fail or refuse to obey an order of the court issued in accordance with this section, he may be punished by the court issuing the same as for contempt thereof.

§ 7. For the conduct of hearings and to facilitate the performance of the duties imposed upon it, its members and agents under this act, the Board of Appeals is authorized to promulgate all such rules and regulations and procedures and prescribe such uniform forms as it deems appropriate and needful and to require strict compliance with the same by all persons concerned.

§ 8. If the parent, guardian, or other person having custody of a pupil who has been placed in a particular public school, or five interested heads of families as described in § 11 of this act, shall feel aggrieved by the final decision of the school board making such placement, such person or heads of families may at any time within ten days from the date of such final decision appeal therefrom to the Board of Appeals. Such appeal shall be by petition with copy thereof delivered to the clerk or chairman of the school board, alleging therein the decision complained of and the objections thereto, and specifying the relief sought.

The Board of Appeals shall thereupon be charged with the duty of reviewing the placement made by the school board and of determining whether or not the petitioner is entitled to the relief requested.

Upon filing the petition for review, the Board of Appeals shall fix the time and place for hearing, which shall be held at Richmond, or a place reasonably accessible to the county, city or town in which the

petitioner resides if so requested in the petition, and mail notices thereof to the petitioner and the school board. Upon receipt of a copy of the petition, the school board shall immediately certify to the Board of Appeals all records, exhibits and other information considered by it in making the final placement of the pupil concerned. The school board, or its representative, may appear at the hearing, and shall do so upon request of the Board of Appeals, and present such facts and information as may be deemed material for a proper review of the placement.

After consideration of the petition, the information furnished by the school board and the evidence adduced at the hearing, if any, the Board of Appeals shall determine the school in which the pupil should be placed and enrolled and enter an order accordingly. Such order shall be entered within thirty days from the date the petition was filed.

§ 9. If the parent, guardian, or other person having custody of the pupil, or five interested heads of families described in § 11 of this act, shall feel aggrieved by the final order of the Board of Appeals, such person or heads of families may at any time within ten days from the date of such order appeal therefrom to the circuit court of the county or corporation court of the city wherein such child resides. Such appeal shall be by petition against the Board of Appeals as defendant, alleging therein the order complained of and the objections thereto, and specifying the relief sought. Upon the filing of the petition for appeal the clerk of the court shall forthwith issue a summons returnable within twenty-one days. On or before the return day of such summons, the Board of Appeals may file its plea, demurrer, or answer to the allegations contained in the petition, but failure to do so shall not be taken as an admission of the truth of the facts set forth therein. The record on appeal shall consist of the petition to the Board of Appeals and the order complained of duly certified by such board, which shall be filed with the clerk of the court on or before the return day of such summons. The case shall be matured for hearing upon the return date of such summons, and heard and determined de novo by the court without a jury, either in term or vacation.

If the decision of the court be that the order of the Board of Appeals shall be set aside, the court may adjudge that such pupil is entitled to attend the school as claimed in the petition to the Board of Appeals, or such other school as it may find such pupil is entitled to attend, and, in such case, such pupil shall be admitted to such school by the school board. From the final order of the court an appeal may be taken by either party to the Supreme Court of Appeals in the same manner as other appeals are taken from judgments in civil actions.

§ 10. Notwithstanding the requirements of § 3, any child whose residence is established in any county, city or town subsequent to March 5 preceding the school year in which he wishes to attend school shall make application to the school board for placement through his parent, guardian or other person having custody of such child within thirty days after such residence is established. The school board, or its designated agent, shall make the initial placement within 10 days after receipt of such application. Such application shall be in the same form as required by § 3 and the procedure to be followed, except insofar as altered by this section, shall be mutatis mutandis the same as prescribed by the preceding sections of this act.

The action of the school board, or its representative, in making the placement of any pupil, whose parent, guardian or other person having custody of such pupil fails to make application within the time required by this section, shall be final.

All final orders of school boards concerning applications for

review of placements made by parents, guardians or other persons having custody of children whose residences are established in any county, city or town subsequent to March 5 preceding the school year in which they wish to attend school shall be entered within thirty days after receipt of such applications for review.

§ 11. Any five interested heads of families who are residents of the county, city or town and patrons of the public school involved in the placement or placements required by this act, who may feel themselves aggrieved by the action of the school board, or any of its agents or representatives, in making the initial placement or placements required by this act, may apply for review within ten days from the date all placements must be made pursuant to provisions of § 3, or within ten days after the making of the initial placements under § 10, by making application in writing to the school board setting forth the particular objections to the placement or placements involved. Upon receipt of such application, the school board shall review the placement or placements complained of in the same manner as required by § 4. If the relief requested is not granted, a petition may be filed with the Board of Appeals and the circuit or corporation court, as the case may be, in the same manner as is provided in the case of an aggrieved parent, guardian or other person having custody of a pupil.

§ 12. In any case where schools are operated jointly by more than one political subdivision, any final placement must be approved by a majority of the school board if a single board has been formed pursuant to the provisions of Chapter 6 of Article 5 of Title 22 of the Code and if such single board has not been formed then such final placement must be approved by a majority of the members of each participating board, which said boards shall sit jointly but vote separately.

§ 13. This act shall not be applicable to or effective in any county, city or town, if such town be a separate school district, unless such county, city or town, elects to be bound by the provisions of this act in lieu of §§ 22-232.1 through 22-232.17 of the Code of Virginia as amended. Such election may be made from time to time by ordinance duly adopted by the governing body upon recommendation of the school board of the county, city or town to be affected thereby. § 11. A list of persons so notified shall be sent by the superintendent of schools, or the attendance officer, if there is one, to the principal teacher of the school. Item 138	First Year	Second Year
For basic appropriation for teachers salaries	$44,655,500	$50,975,150

It is provided that in the apportionment of this sum no county or city shall receive less than the amount prescribed by § 135 of the Constitution of Virginia.

It is provided, further, that the total of this sum, including the aforementioned apportionment, and the sums set forth in Items 139 and 140 shall be apportioned to the public schools by the State Board of Education under rules and regulations promulgated by it to effect the following provisions:

a. The apportionment shall be on the basis of the following amounts, as applicable, per State aid teaching position:

(1) in the first year of the biennium, $1,650 for each such position, plus an additional $150 for each such position which is occupied by a teacher having a collegiate professional certificate (or equivalent) and seven or less years of experience or by a teacher having a normal professional certificate (or equivalent) and eleven or less years of experience; and,

(2) in the second year of the biennium, $1,750 for each such position, plus an additional $300 for each such position which is occupied by a teacher having a collegiate professional certificate (or equivalent) and seven or less years of experience or by a teacher having a normal professional certificate (or equivalent) and eleven or less years of experience.

It is provided, however, that no payment from this item for a State aid teaching position shall exceed two-thirds of the salary paid the incumbent of a State aid teaching position when the total salary of such incumbent is less than the amount of State aid available for each State aid teaching position. For purposes of this act, "State aid teaching position" is defined as one teaching position for each thirty (30) pupils in average daily attendance in the elementary grades and one teaching position for each twenty-three (23) pupils in average daily attendance in the high school grades. The average daily attendance figures used in the apportionment of this item shall be those of the school year falling within the fiscal year for which the appropriation is made.

b. No apportionment from this item shall be made to any county or city for State aid teaching positions in excess of the number of such positions in which teachers are actually employed; provided, however, that in exceptional circumstances and in the discretion of the State Board of Education, a county or city may employ fewer teachers than the number of assigned State aid teaching positions allotted in accordance with paragraph a.

c. No apportionment from this item shall be made to any county or city except for payment of salaries of teachers or other instructional personnel in the public schools, or for payment of tuition in lieu of teacher or other instructional salaries under rules and regulations of the State Board of Education.

d. The annual expenditure of funds, derived from local sources, for instruction in the public schools shall not be less than the annual expenditure made from local sources for such instruction for the second school year in the previous biennium. However, if a county or city has established and maintains a salary schedule for teachers and other instructional personnel satisfactory to the State Board of Education, the expenditure, derived from local funds, for the salaries of teachers and other instructional personnel may be reduced below such expenditures for the second school year in the previous biennium, provided the reduction and the amount of reduction are approved by the State Board of Education. Also, a county or city may reduce such expenditure in exceptional circumstances due to a substantial loss in average daily attendance of pupils in the county or city, or in other exceptional local conditions, provided the reduction and the amount of reduction are approved by the State Board of Education.

e. The county or city shall pay from local funds at least thirty per cent (30%) of the total amount expended for salaries of teachers and other instructional personnel. However, a county or city shall be permitted by the State Board of Education to pay not less than twenty per cent (20%) of such amount if the county or city provides a levy or cash appropriation or a combination of both for schools which, when converted to an equivalent true tax rate, is as great as the average of all county or all city levies or cash appropriations or a combination of both such levies and appropriations for schools converted to an equivalent true tax rate; in converting a levy or cash appropriation or a combination of both for schools to an equivalent true tax rate, ratios of assessed valuations to true values used shall be such ratios determined by the State Tax Commissioner for the tax year 1950. For such counties or cities, the State Board of Education shall determine the per cent of local contribution, in no instance less than twenty per cent (20%) of the total amount expended for salaries of teachers and other instructional personnel.

f. A minimum salary schedule for teachers and other instructional personnel, satisfactory to the State Board of Education and approved by the Governor, shall be put into effect.

g. If any municipality annexes any portion of any county or counties, the State Board of Education shall make such equitable adjustment of the funds which would otherwise have gone to either as is in its opinion justified by the peculiar condition created by such annexation, and order distribution of such funds according to its findings. This provision shall not apply if a court of competent jurisdiction makes such adjustment and orders such distribution.

h. Allotments of funds from this item and from Items 139 and 140 beyond the constitutional appropriation shall be paid to a county or city only after

The average daily attendance data for such county, city or town for the previous year may be used in making this adjustment.

It is further provided that in the event the total of the sums set forth in Items 138, 139, and 140 exceeds the amount necessary to make the apportionments required by this item, any balance remaining may, upon request by the State Board of Education, and with the prior written approval of the Governor, be transferred and added to the sums set forth in Item 142 or in Item 148, or in both.

a. It is provided that the State Board of Education shall pay from the sums provided by this item to each county and city an amount equal to that paid for the year ending June 30, 1958, from Item 137, Chapter 716, Acts of Assembly of 1956.

b. It is provided further that the State Board of Education shall make no distribution from this item to any county or city which has not first complied with the conditions stated in paragraphs c-h, inclusive, of Item 138 and in paragraph b of Item 142.

c. If the sums available for this item as listed herein or by authorized transfer hereto are not sufficient for the purposes described, the distribution of such sums shall be made on a pro rata basis. If the sums available for this item as listed herein exceed the amount required for the purposes described, any balance remaining may, upon request of the State Board of Education, with the prior written approval of the Governor, be transferred and added to the sums set forth in Item 138, or in Item 142, or in both.

Joint Resolutions of the General Assembly

EXTRA SESSION 1959

STUDIES FOR LEGISLATION

HOUSE JOINT RESOLUTION NO. 15

Requesting the Virginia State Bar and the Virginia State Bar Association to study the problem of drunken driving and the statutes relating thereto.

Agreed to by the House, April 15, 1959

Agreed to by the Senate, April 22, 1959

Whereas, the appalling and senseless rising toll in death, injury and damages from motor vehicle accidents in Virginia and throughout the several states has given grave concern to public officials and legislators as well as to the people of the nation; and

Whereas, a lamentably large number of the motor vehicle accidents on the highways of this and other states are attributable to the operation of vehicles by drivers who are under the influence of intoxicants; and

Whereas, all states have taken action to combat this menace and have by such means as required blood and other tests, mandatory jail sentences, and heavy penalties for convictions, sought to ameliorate these conditions; and

Whereas, the Virginia Advisory Legislative Council has been directed by the General Assembly of Virginia to make a study of the problems of drunken driving and means which should be taken to combat it and to report its findings and recommendations to the Governor and General Assembly not later than September one, nineteen hundred fifty-nine; and

Whereas, the assistance of the Virginia State Bar and the Virginia State Bar Association is desired by the Virginia Advisory Legislative Council in this undertaking; now, therefore,

Be it resolved by the House of Delegates, the Senate concurring, That the Virginia State Bar and the Virginia State Bar Association, respectively, are requested to study the problem of drunken driving on the highways of Virginia with a view to reducing the number of deaths and injuries upon the highways of this Commonwealth resulting from persons driving automobiles while intoxicated, and further requests that such studies be completed and that the Virginia State Bar and the Virgina State Bar Association, respectively, submit their findings and recommendations to the Virginia Advisory Legislative Council not later than September one, nineteen hundred fifty-nine.

Resolved, further, that the Clerk of the House of Delegates transmit to the presidents of the Virginia State Bar and the Virginia State Bar Association copies of this resolution.

HOUSE JOINT RESOLUTION NO. 17

Creating a commission to study the feasibility of educational television.

Agreed to by the Senate, as amended, April 22, 1959

Agreed to by the House, as amended, April 23, 1959

Whereas, television appears to offer a method whereby the education of our children might be greatly strengthened and improved; and

Whereas, some cities and states have found that television offers a means whereby the highly qualified teacher may instruct a much larger number of children than is possible in a classroom; and

Whereas, in view of the current conditions in the field of public education in this State, it is desirable that steps be taken, so far as possible, to provide for the education of our children through television, which medium of education would seem to offer many advantages with few of the difficulties now confronting education generally, now, therefore, be it

Resolved by the House of Delegates, the Senate concurring, That a Commission be, and it hereby is, created to make a study and report upon the feasibility of a program of State-supported or State-aided educational television in all areas of the State. The Commission shall be composed of nine members, of whom four shall be appointed by the Speaker of the House of Delegates from the membership thereof, two shall be appointed by the President of the Senate from the membership thereof, and three shall be appointed by the Governor who shall select one of his nominees from either the State Board of Education or the State Department of Education. The Commission shall meet and organize as soon as may be, in order to make its report to the Governor and General Assembly, which report shall be made not later than January 31, 1960. All agencies of the State shall assist the Commission in its study. The members of the Commission shall receive no compensation for their services but shall be paid their necessary expenses for which, and for such secretarial and other assistance as the Commission may require, there is hereby appropriated the sum of two thousand dollars, to be paid from the contingent fund of the General Assembly.

In making this study, the Commission shall consider:

(a) the benefits to be obtained from a State-aided or State-supported program of educational television as compared to the disadvantages thereof,

(b) the experiences of municipalities and other states in educational television,

(c) how educational television might permit skilled teachers to instruct larger classes and enable more children to benefit from such instructional personnel, and

(d) the benefits to all the children of the State which might be derived from educational television as a means of furthering the education of children under conditions which would be conducive to the best interests of such children.

HOUSE JOINT RESOLUTION NO. 30

Requesting the Virginia Commission on the Aging to study and report to the Governor and the General Assembly on certain facilities for aged and incapacitated persons.

Agreed to by the House and Senate, April 23, 1959

Whereas, the population of Virginia sixty-five years of age and over is increasing by eight thousand to nine thousand each year, a significant number of whom require care outside their own homes; and

Whereas, there is an increasing need for homes for the aged and nursing homes located so as to make such facilities available to all areas within a reasonable distance; and

Whereas, there appears to be a need for additional institutional facilities for the care of aged persons, especially on a district or area basis; and

Whereas, costly hospital care is frequently extended because of a lack of appropriate nursing or domiciliary facilities for the aged and infirm for whom appropriate care is not available in their own homes; now, therefore, be it

Resolved, by the House of Delegates, the Senate concurring, that the Virginia Commission on the Aging is hereby requested to make a study of the present institutional facilities in the State operated by counties and cities, or combinations thereof, or under private auspices for aged and incapacitated persons to determine whether present needs are being met and, if not, the areas in which additional facilities are needed. The Commission is further requested to consider how additional facilities, if found to be needed, can best be provided. The Commission shall conclude this study and make a report thereon to the Governor and the General Assembly not later than August 1, 1959.

except so far as may be therein otherwise provided, shall be construed to impose and confer upon the parties thereto, and the beneficiaries thereunder, the following duties, rights and obligations in like manner as if the same were expressly provided for by such deed of trust, namely:

(1) The deed shall be construed as given to secure the performance of each of the covenants entered into by the grantor as well as the payment of the primary obligation.

(2) The grantor shall be deemed to covenant that he will pay all taxes, levies, assessments and charges upon the property, including the fees and charges of such agents or attorneys as the trustee may deem advisable to employ at any time for the purpose of the trust, so long as any obligation upon the grantor under the deed of trust remains undischarged.

(3) The grantor shall be deemed to covenant that he will keep the improvements on the property in tenantable condition, whether such improvements were on the property when the deed of trust was given or were thereafter placed thereon.

(4) The grantor shall be deemed to covenant that no waste shall be committed or suffered upon the property.

(5) The grantor shall be deemed to covenant that in the event of his failure to meet any obligations imposed upon him then the trustee or any beneficiary may, at his option, satisfy the same; and the money so advanced with interest thereon shall be a part of the debt secured by the deed, in the event of sale to be paid next after the expenses of executing the trust, and shall be otherwise recoverable from the grantor as a debt.

(6) In the event of default in the payment of the debt secured, or any part thereof, at maturity, or in the payment of interest when due, or of the breach of any of the covenants entered into or imposed upon the grantor, then at the request of any beneficiary the trustee shall forthwith declare all the debts and obligations secured by the deed of trust at once due and payable and shall take possession of the property and proceed to sell the same at auction at the premises or at such other place as the trustee may select upon such terms and conditions as the trustee may deem best, after first advertising the time, place and terms of sale in such manner as the deed may provide, or, if none be provided, * *the trustee shall advertise* the time, place and terms of sale once a week for four successive weeks in a newspaper published or having general circulation in the county or city in which the property or some portion thereof is located *and may sell such property on the twenty-second day after the first advertisement or any day thereafter.* It *is* not * intended, however, to declare that other and different advertisement may not in any case be deemed reasonable, nor to prevent the trustee from giving the sale such additional advertisement as he deems advisable. No notice to the grantor or his successor in title shall be required unless required by the deed of trust. *Any sale of property held less than twenty-eight days after the date of the first publication made prior to July first, nineteen hundred sixty, in substantial conformity herewith is hereby validated.*

(7) If the property or some portion thereof is located in a city, or in a county immediately contiguous to a city of the first class, publication of the advertisement five different times in any newspaper published or having general circulation in such city or county (the last insertion if desired on the day of sale) shall be deemed adequate; it not being intended, however, to declare that other and different advertisement may not in any case be deemed reasonable, nor to prevent the trustee from giving the sale such additional advertisement as he may deem advisable. The advertisement and sale of property made prior to January one, nineteen hundred fifty-six, in substantial conformity herewith is hereby validated.

(8) If the deed of trust itself provides a method of advertising, which may be done by using the words "advertisement required", or words of like purport, followed by the method agreed on, then no other or different advertisement shall be necessary, beyond what the deed calls for, though the trustee may in his discretion, give further advertisement.

(9) The trustee may postpone the sale at his discretion, in such case giving such notice by advertisement of such postponement as he may deem reasonable, and, without meaning to declare any other method unreasonable, when the advertisement is by publication in a newspaper the continuation thereof in subsequent issues of such newspaper with a note of such adjournment appended shall be deemed adequate in the absence of contrary provision in the deed of trust.

(10) The trustee may require of any bidder at any sale a cash deposit of not exceeding one hundred dollars, (unless the deed of trust specifies a different maximum, which may be done by the words "bidder's deposit of not more than ..... dollars may be required," or words of like purport), before his bid is received, which shall be refunded to the bidder unless the property is sold to him, otherwise to be applied to his credit in settlement or, should he fail to complete his purchase promptly, to be applied to pay the costs and expense of sale and the balance, if any, to be retained by the trustee as his compensation in connection with that sale.

(11) If the sale be upon credit terms the deferred purchase money shall bear interest from the day of sale and shall be secured by a deed of trust upon the property contemporaneous with the trustee's deed to the purchaser.

(12) The clerk of the court upon admitting to record the deed of such trustee conveying property held in trust shall note a reference to same on the margin of the deed book where the deed or other writing conveying the property to such trustee in trust is recorded, if the same can be found in his office.

(13) The trustee shall receive and receipt for the proceeds of sale, no purchaser being required to see to the application of the proceeds, and apply the same, first, to discharge the expenses of executing the trust, including a commission to the trustee of five per centum of the gross proceeds of sale; secondly, to discharge all taxes, levies, and assessment, with costs and interest, including the due prorata thereof for the current year; thirdly, to discharge in the order of their priority, if any, the remaining debts and obligations secured by the deed, with lawful interest; and, fourthly, the residue of the proceeds shall be paid to the grantor or his assigns; provided, however, that the trustee as to such residue shall not be bound by any inheritance, devise, conveyance, assignment or lien of or upon the grantor's equity, without actual notice thereof prior to distribution.

(14) Upon discharge of all the debts, duties and obligations imposed by the deed upon the grantor, including any expenses incurred preparatory to sale, then upon the grantor's request the trustee shall execute and deliver a good and sufficient deed of release at the grantor's own proper costs and charges.

Any sale of property located in a city, made under a deed of trust after first advertising the time, place and terms of sale once a week for four successive weeks in a newspaper published or having general circulation in such city, is validated, provided such sale was otherwise conducted according to law.

CHAPTER 6

An Act to amend and reenact § 15-668.1 of the Code of Virginia, authorizing certain counties to enter upon and take possession of certain property for certain purposes prior to condemnation, and to provide for the compensation of owners.

[S 46]

Approved February 11, 1960

Be it enacted by the General Assembly of Virginia:

1. That § 15-668.1 of the Code of Virginia be amended and reenacted as follows:

§ 15-668.1. (a) In addition to the exercise of the power of eminent domain, as provided hereinabove, every county having a density of population of more than * *four* thousand persons per square mile which now has or may hereafter be given such power is authorized to enter upon and take possession of such property and rights of way, for the * *purpose of laying out, constructing, altering, improving and lighting streets and alleys,* as the governing body thereof may deem necessary and proceed with the construction of such project.

(b) No property shall be entered upon and taken by any such county under condemnation proceedings unless, prior to entering upon and taking possession of such property or right of way, the governing body of such county notifies the owners of such property and rights of way by registered mail, that it intends to enter upon and take the same. Upon the passage of a resolution or ordinance providing for any such taking, such notice shall be sent forthwith on a date to be specified in such ordinance or resolution and the property owners affected shall have thirty days within which to contest the taking in such fashion.

(c) Within sixty days after the completion of such project, if the county and the owners of such lands are unable to agree as to compensation and damages, if any, caused thereby, the county shall institute condemnation proceedings, as provided in this article; and the amount of such compensation and damages, if any, awarded to the owner in such proceeding shall be paid by such county. The county shall pay to the landowner or into court or to the clerk thereof, for his benefit such sum as the governing body thereof estimates to be the fair value of the land taken and damage done, before entering upon such land for construction purposes, provided such payment shall in nowise limit the amount to be allowed under proper proceedings. It is the intention of this section to provide that such property and rights of way may, in the discretion of the governing body of the county be condemned after the construction of the project, as well as prior thereto, and to direct the fund out of which the judgment of the court in condemnation proceedings shall be paid, except that no property of any public service corporation, except lands required for drains, sewers or public ducts, shall be condemned except in accordance with §§ 15-749 to 15-754 and 25-233. But the authorities constructing such project under the authority of this section, shall use diligence to protect growing crops and pastures and to prevent damage to any property not taken. So far as possible all rights of way shall be acquired or contracted for before any condemnation is resorted to.

(d) Any owner of property or rights of way sought to be taken by any such county by entry upon and taking possession thereof, shall be given notice as provided in paragraph (b) of this section and shall have thirty days within which to contest the manner of such taking. Any such property owner desiring so to do may institute a proceeding in the

circuit court of the county, wherein the condemnation proceedings are to be instituted, to determine whether or not such taking is of an emergency nature such as to justify resort to entry upon the land prior to an agreement between the county and the property owner as to compensation and damages to be paid therefor. Any other property owner affected may intervene. The members of the governing body of the county shall be served with notice as provided by law and shall be made parties defendant. Upon the bringing of any such proceeding the same shall be placed upon the privileged docket of the court and shall take precedence over all other civil matters pending therein and shall be speedily heard and disposed of. The issue in any such proceeding shall be whether or not the circumstances are such as to justify an entry upon and taking possession by the county of the property involved prior to an agreement upon compensation and damages therefor. If the court be of the opinion that no such emergency exists, and that such manner of taking would work an undue hardship upon any such owner, it shall enter an order requiring the county to proceed by methods of condemnation providing for the ascertainment of compensation and damages for property to be taken prior to such taking, if the county deems it necessary to proceed with the project for which the property is sought.

utility during the current and ensuing fiscal year. At the time the city manager submits to the council the budgets provided for by chapter 6 of this charter, he may submit an estimate of the amount of such surplus. The council may, in its discretion by not less than six affirmative votes, at the beginning of or during the ensuing fiscal year transfer to the general fund or reserve fund for permanent public improvements the whole or any part of the amount of the surplus estimated by the city manager, provided such transfer shall not exceed such estimate. The surplus shall be determined by deducting from the actual or estimated cash receipts of each utility from all sources, actual or estimated, disbursements for operating expenses and for the amortization of any debt incurred by the city on account of any such utility.

§ 17.11. Uniformity of Regulations within a District—*Special Use Permits. (a)* The regulations and restrictions shall be uniform and shall apply equally to all land, buildings, and structures and to the use and to each class or kind thereof throughout each district but the regulations and restrictions applicable in one district may differ from those provided for other districts.

(b) The council shall have the power to authorize by ordinance adopted by not less than seven affirmative votes the use of land, buildings, and structures in a district that does not conform to the regulations and restrictions prescribed for that district and to authorize the issuance of special use permits therefor, whenever it is made to appear that such special use will not be detrimental to the safety, health, morals and general welfare of the community involved, will not tend to create congestion in streets, roads, alleys and other public ways and places in the area involved, will not create hazards from fire, panic or other dangers, will not tend to overcrowding of land and cause an undue concentration of population, will not adversely affect or interfere with public or private schools, parks, playgrounds, water supplies, sewage disposal, transportation or other public requirements, conveniences and improvements, and will not interfere with adequate light and air. No such ordinance shall be adopted until (1) the ordinance has been referred to the city planning commission for investigation of the circumstances and conditions upon which the council is empowered to authorize such use and until the commission has reported to the council the results of such investigation and its recommendations with respect thereto, and (2) until after a public hearing in relation to such ordinance is held by the council at which the persons in interest and all other persons shall have an opportunity to be heard. At least fifteen days notice of the time and place of such hearing shall be given by publication thereof in a daily newspaper of general circulation published in the city. The council shall have the power to require such other notice as it may deem expedient. The city planning commission may recommend and the council may impose such conditions upon the use of the land, buildings and structures as will, in its opinion, protect the community and area involved and the public from adverse effects and detriments that may result therefrom.

§ 17.12. Considerations to be Observed in Adoption and Alteration of Regulations.—The regulations and restrictions shall be enacted with reasonable consideration, among other things of the character of each district and its peculiar suitability for particular uses and with a view of conserving the value of land, buildings and structures and encouraging the most appropriate use thereof throughout the city. Upon the enactment of the ordinance dividing the city into districts and regulating and restricting the use of land, buildings and structures therein in accordance with a comprehensive zoning plan no land, building or structure shall be changed from one district to another district unless the change is in accord with the interest and purposes of this section and will not be con-

(d) "Fiduciary" means an executor, administrator, trustee, guardian, committee, conservator, curator, custodian, or nominee.

(c) is not charged with notice of and is not bound to obtain or examine any court record or any recorded or unrecorded document relating to the fiduciary relationship or the assignment, even though the record or document is in its possession.

§ 13.1-428. A corporation or transfer agent making a transfer pursuant to an assignment by a fiduciary who is not the registered owner shall obtain the following evidence of appointment or incumbency:

The corporation or transfer agent is not put on notice unless the written notice identifies the claimant, the registered owner, and the issue of which the security is a part, provides an address for communications directed to the claimant and is received before the transfer. Nothing in this chapter relieves the corporation or transfer agent of any liability for making or refusing to make the transfer after it is so put on notice, unless it proceeds in the manner authorized in subsection (b).

(b) As soon as practicable after the presentation of a security for transfer pursuant to an assignment by a fiduciary, a corporation or transfer agent which has received notice of a claim of beneficial interest adverse to the transfer may send notice of the presentation by registered or certified mail to the claimant at the address given by him. If the corporation or transfer agent so mails such a notice it shall withhold the transfer for thirty days after the mailing and shall then make the transfer unless restrained by a court order.

The appraisers so appointed shall be experienced persons competent to appraise real estate in the locality in which the real estate is, and each appraisal, if and when the loan shall exceed five thousand dollars, shall be made by at least two appraisers.

(o) to receive and accept from the United States of America or any agency or instrumentality thereof grants for or in aid of the planning, construction or financing of any sewage disposal system or sewer improvements, and to receive and accept contributions from any source of either money, property, labor or other things of value, to be held, used and applied only for the purposes for which such grants and contributions may be made;

(p) to make and enter into all contracts and agreements necessary or incidental to the performance of its duties and the execution of its powers under this act;

(q) to do and perform any acts and things authorized by this act under, through or by means of its own officers, agents and employees, or by contracts with any persons; and

(r) to execute any and all instruments and do and perform any and all acts or things necessary, convenient or desirable for the purposes of the Commission or to carry out the powers expressly given in this act.

§ 11. (a) The Commission is hereby authorized and empowered to acquire by purchase, lease, grant or conveyance such lands, structures, property, rights, rights of way, easements, franchises and other interests in or relating to lands, including lands lying under water and riparian rights, as it may deem necessary or convenient for the construction and operation of any sewage disposal system or sewer improvements, upon such terms and at such prices as may be considered by it to be reasonable and can be agreed upon between it and the owner thereof.

All public agencies and commissions of the Commonwealth with the approval of the Governor and all counties, cities, towns and political subdivisions, notwithstanding any contrary provision of law, are hereby authorized and empowered to lease, lend, grant or convey to the District at the request of the Commission upon such terms and conditions as may be mutually agreed upon, without the necessity for any advertisement, order of court or other action or formality, any real property which may be necessary or convenient to the effectuation of the authorized purposes of the Commission, including public highways and other real property already devoted to public use.

(a) refunding any bonds heretofore issued by the Commission and any revenue bonds, notes and other obligations issued under the provisions of this act and then outstanding, including the payment of any redemption premium thereon and any interest accrued or to accrue to the date of redemption thereof; provided, however, that no bonds issued after the effective date of this act shall be refunded at a net interest cost exceeding that of such bonds to be refunded,

(b) paying the cost of a sewage disposal system or systems,

(c) paying the cost of extensions and additions thereto, and

(d) paying the cost of sewer improvements.

§ 13. The principal of and the interest on revenue bonds issued under the provisions of this act shall be payable solely from the funds therein provided for such payment. The bonds of each issue shall be dated, shall bear interest at such rate or rates not exceeding six per centum (6%) per annum, shall mature at such time or times not exceeding forty years from their date or dates, as may be determined by the Commission, and may be made redeemable before maturity, at the option of the Commission, at such price or prices and under such terms and conditions as may be fixed by the Commission prior to the issuance of the bonds; provided, however, that any bonds of more than ten years maturity shall be made redeemable before maturity, at the option of the Commission, at such price or prices and under such term and conditions as may be fixed by the Commission prior to the issuance of the bonds. The Commission shall determine the form and the manner of execution of the bonds, including any interest coupons to be attached thereto, and shall fix the denomination or denominations of the bonds and the place or places of payment of principal and interest, which may be at any bank or trust company within or without the Commonwealth. In case any officer whose signature or a facsimile of whose signature shall appear on any bonds or coupons shall cease to be such officer before the delivery of such bonds, such signature or such facsimile shall nevertheless be valid and sufficient for all purposes the same as if he had remained in office until such delivery, and any bond may bear the facsimile signature of, or may be signed by, such person or persons as at the actual time of the execution of such bond shall be the proper officer or officers to sign such bond although at the date of such bond such person or persons may not have been such officer or officers. Notwithstanding any other provisions of this act or any recitals in any bonds issued under the provisions of this act, all such bonds shall be deemed to be negotiable instruments under the laws of the Commonwealth. The bonds may be issued in coupon or in registered form, or both, as the Commission may determine, and provision may be made for the registration of any coupon bonds as to principal alone and also as to both principal and interest, for the reconversion into coupon bonds of any bonds registered as to both principal and interest, and for the interchange of registered and coupon bonds. The Commission may sell such bonds in such manner, either at public or private sale, and for such price, as it may determine to be for the best interests of the District, but no such sale shall be made at a price so low as to require the payment of interest on the money received therefor at more than six per centum (6%) per annum, computed with relation to the absolute maturity or maturities of the bonds in accordance with standard tables of bond values excluding, however, from such computation, the amount of any premium to be paid on the redemption of any bonds prior to maturity.

§ 14. The proceeds of the bonds shall be disbursed in such manner and under such restrictions, if any, as the Commission may provide in the resolution authorizing the issuance of such bonds or in the trust agreement hereinafter mentioned securing the same. Such resolution or trust agreement may also contain such limitations upon the issuance of additional revenue bonds, and such provisions for accelerating the maturities

of the bonds in the event of a default and for amending or supplementing such resolution or trust agreement, as the Commission may deem proper.

§ 15. Prior to the preparation of definitive bonds, the Commission may, under like restrictions, issue interim receipts or temporary bonds, with or without coupons, exchangeable for definitive bonds when such bonds shall have been executed and are available for delivery. The Commission may also provide for the replacement of any bonds which shall become mutilated or shall be destroyed or lost.

§ 16. Except as hereinafter provided in this act, bonds may be issued under the provisions of this act without obtaining the consent or approval of any department, division, commission, board, bureau or agency of the Commonwealth or of any district or other political subdivision of the Commonwealth, and without any other proceedings or the happening of any other conditions or things than those proceedings, conditions or things which are specifically required by this act.

§ 17. It shall not be necessary to secure the approval by a majority vote of the qualified voters of the District voting in an election on the question of the issuance of any of such revenue bonds, and none of the limitations, restrictions or conditions which are contained in any other law on the amount of bonds or the manner of issuing bonds shall be applicable to revenue bonds issued under the provisions of this act.

§ 18. Neither the members of the Commission nor any person executing any bonds or temporary bonds shall be liable personally on the bonds or temporary bonds or be subject to any personal liability or accountability by reason of the issuance thereof.

§ 19. In addition to all other powers granted to the Commission by this act, the Commission is hereby authorized and empowered to provide for the issuance at one time or from time to time of notes or other obligations of the District, payable solely from revenues or other funds of the District, for any of its authorized purposes. All the provisions of this act which relate to bonds or revenue bonds shall apply to such notes or other obligations in so far as such provisions may be appropriate.

§ 20. The issuance of bonds, secured by a trust agreement under the provisions of this act shall be subject to the approval of the State Corporation Commission. If the State Corporation Commission shall not enter an order approving or disapproving the issuance of such bonds within sixty days after the Commission shall have filed the resolution authorizing the issuance of such bonds or the trust agreement hereinafter mentioned securing the same with the State Corporation Commission, the issuance of the bonds shall be deemed to have been approved by the State Corporation Commission for the purpose of this paragraph. If the State Corporation Commission shall enter an order within such sixty day period disapproving the issuance of such bonds, the Commission may at any time thereafter file a new or revised resolution or trust agreement for the purpose of securing the approval of the State Corporation Commission of the new or revised bonds of the District.

§ 21. In the discretion of the Commission the revenue bonds of any issue may be secured by a trust agreement by and between the Commission and a corporate trustee, which may be any trust company or bank having the powers of a trust company within or without the Commonwealth. Any such trust agreement or the resolution providing for the issuance of such bonds may pledge or assign the revenues to be received, but shall not convey or mortgage any sewage disposal system or sewer improvements or any part thereof. Any such trust agreement or resolution providing for the issuance of such bonds may contain such provisions for protecting and enforcing the rights and remedies of the bondholders as may be reasonable and proper and not in violation of law, including covenants setting forth the duties of the Commission in relation to the acquisition of property and the construction, improvement, exten-

sion, enlargement, reconstruction, maintenance, equipment, repair, operation and insurance of the properties of the District, and the custody, safeguarding and application of all moneys. Any such trust agreement may provide for or permit the issuance of additional bonds from time to time for the further extension of the sewerage system. It shall be lawful for any bank or trust company incorporated under the laws of the Commonwealth which may act as depositary of the proceeds of bonds or of revenues to furnish such indemnifying bonds or to pledge such securities as may be required by the Commission. Any such trust agreement may set forth the rights and remedies of the bondholders and of the trustee, and may restrict the individual right of action by bondholders. In addition to the foregoing, any such trust agreement or resolution may contain such other provisions as the Commission may deem reasonable and proper for the security of the bondholders. All expenses incurred in carrying out the provisions of any such trust agreement or resolution may be treated as a part of the cost of operation.

No such trust agreement or resolution need be filed or recorded except in the records of the Commission.

§ 22. The Commission shall, in the resolution providing for the issuance of revenue bonds or in the trust agreement securing the same, fix the schedule of rates, fees and other charges for the use of, and for the services and facilities furnished or to be furnished by, the sewage disposal system or systems and the sewer improvements, if any, for which such bonds are to be issued, to be paid by the owner, tenant or occupant of each lot or parcel of land which may be connected with or may use any such sewage disposal system or sewer improvements. The Commission may revise such schedule of rates, fees and charges from time to time. Such rates, fees and charges shall be so fixed and revised as to provide funds, with other funds available for such purposes, sufficient at all times (a) to pay the cost of maintaining, repairing and operating such sewage disposal system or systems and such sewer improvements, if any, including reserves for such purpose and for renewals and replacements and necessary extensions and additions to the sewerage system, (b) to pay the principal of and the interest on such revenue bonds as the same shall become due and to provide reserves therefor, and (c) to provide a margin of safety for making such payments. The Commission shall charge and collect the rates, fees and charges so fixed or revised, and, except as hereinafter provided in this act, such rates, fees and charges shall not be subject to supervision or regulation by any department, division, commission, board, bureau or agency of the Commonwealth or of any district or other political subdivision of the Commonwealth.

Such rates, fees and charges shall be just and equitable and may be based or computed either upon the quantity of water used or upon the number and size of sewer connections or upon the number and kind of plumbing fixtures in use in the premises connected with the sewerage system or upon the number or average number of persons residing or working in or otherwise connected with such premises or upon the type or character of such premises or upon any other factor affecting the use of the facilities furnished or upon any combination of the foregoing factors. Charges for services to premises, including services to manufacturing and industrial plants, obtaining all or a part of their water supply from sources other than a public water system may be determined by gauging or metering at the expense of the owner, tenant or occupant of such premises or in any other manner as directed and approved by the Commission. Premises not discharging the entire volume of water into the sanitary sewers shall be allowed a reduction in the charges provided the customer installs facilities, in a manner satisfactory to the Commission, for measuring the volume either discharged or not discharged into the sanitary sewers.

The Commission shall fix and determine the time or times when and the place or places where such rates, fees and charges shall be due and payable and may require that such rates, fees and charges shall be paid in advance for periods of not more than six months. A copy of the schedules of all rates, fees and charges in effect shall at all times be kept on file at the principal office of the Commission, and such schedules shall at all reasonable times be open to public inspection.

In cases where the character of the sewage from any manufacturing or industrial plant, building or premises is such that it imposes an unreasonable burden upon any sewage disposal system, an additional charge may be made therefor, or the Commission may, if it deems it advisable, compel such manufacturing or industrial plant, building or premises to treat such sewage in such manner as shall be specified by the Commission before discharging such sewage into the sewerage system or prohibit the discharge, directly or indirectly, of such sewage into the sewerage system.

§ 23. Before any revision of the present schedule of rates, fees and charges shall become effective the Commission shall publish a copy thereof for four consecutive weeks in a newspaper of general circulation within the District. If, on or before the last publication, the governing body of any city or county constituting a part of the District or five hundred or more qualified voters residing within the District shall file a petition with the State Corporation Commission complaining of the proposed revision, the State Corporation Commission may by order suspend the placing in effect of such revision for a period not exceeding sixty days from the filing of any such petition during which time it shall investigate whether such revision is just and equitable and in accordance with the provisions of this act. If the State Corporation Commission shall not enter an order suspending, approving or disapproving such revision within sixty days from the filing of any such petition, such revision shall be deemed to be in effect. The Commission or the party or parties filing a petition may appeal to the Supreme Court of Appeals from any such order as may be entered by the State Corporation Commission in the manner provided by law.

§ 24. The owner, tenant, or occupant of each lot or parcel of land within the District which abuts upon a street or other public way containing a sanitary sewer served or which may be served by a sewage disposal system of the District and upon which lot or parcel a building shall have been constructed for residential, commercial or industrial use, shall, if so required by such reasonable rules and regulations as shall be promulgated by the Commission, connect such building with such sanitary sewer, and shall cease to use any other method for the disposal of sewage, sewage waste or other polluting matter. All such connections shall be made in accordance with rules and regulations which shall be adopted from time to time by the Commission, which rules and regulations may provide for a charge for making any such connection in such reasonable amount as the Commission may fix and establish.

§ 25. In the event that the rates, fees or charges charged by the Commission for the services and facilities of any sewage disposal system or sewer improvements by or in connection with any real estate or other property served shall not be paid as and when due, the owner, tenant or occupant, as the case may be, of such property shall, until such rates, fees and charges shall be paid, cease to dispose of sewage or industrial wastes originating from or on such property by discharge thereof directly or indirectly into the sewerage system, and if such owner, tenant or occupant shall not cease such disposal within two months thereafter, it shall be the duty of each county, city, town or other public corporation, board or body, private corporation or person supplying water to or selling water for use on, such property, within five days after receipt of notice of such facts

from the Commission to cease supplying water to, and selling water for use on, such property. If such county, city, town or other public corporation, board or body, private corporation or person shall not within such time cease supplying water to, and selling water for use on, such property, the Commission may shut off the supply of water to such property and may disconnect such property from such sewage disposal system or sewer improvements, and for such purposes may enter on any lands, waters and premises of such county, city, town or other public corporation, board or body, private corporation or person.

If any rates, fees or charges for the services and facilities furnished by any sewage disposal system or sewer improvements of the District shall not be paid within thirty days after the same shall become due and payable, the Commission may at the expiration of such thirty day period proceed to recover the amount of any such delinquent rates, fees or charges by any action, suit or proceeding permitted by law or in equity.

§ 26. The Commission shall keep and preserve a complete register, or registers, open to public inspection, of all rates, fees and charges which have been charged by the Commission to the owners, tenants or occupants of any real estate for the use and services of any sewage disposal system or sewer improvements and have become due and payable and have not been paid. Such register or registers shall be kept in such place or places as the Commission shall determine.

§ 27. The Commission and any county, city, town or other political subdivision in whole or in part embraced within the District or any privately or publicly owned water company are authorized to enter into a contract or contracts providing for the collection by such county, city, town or political subdivision or privately or publicly owned water company and payment over to the Commission of the rates, fees and charges charged by the Commission against the owners, tenants or occupants of real estate within such county, city, town or political subdivision or served by such privately or publicly owned water company, or providing for the payment to the Commission by such county, city, town or political subdivision or privately or publicly owned water company of a sum or sums of money in lieu of all or part of the rates, fees and other charges which would otherwise be charged by the Commission to the owners, tenants or occupants of real estate within such county, city, town or political subdivision or served by such privately or publicly owned water company. Such county, city, town or political subdivision or privately or publicly owned water company is vested with powers to do everything necessary or proper to carry out and perform every such contract, including the same powers with respect to rates, fees and other charges as are conferred by this act upon the Commission. The Commission is authorized to reduce ratably in accordance with such contract the rates, fees and other charges which would otherwise be charged by the Commission to the owners, tenants or occupants of real estate within such county, city, town or political subdivision or served by such privately or publicly owned water company, but nothing in this section or any such contract shall be construed to prevent the Commission from charging to and collecting from such owners, tenants or occupants of such real estate, in the same manner as provided for such rates, fees and other charges, any deficiency in any payment agreed to be made by such county, city, town or political subdivision or privately or publicly owned water company.

§ 28. All revenues derived by the Commission from the sewage disposal system or systems or sewer improvements financed or refinanced by the bonds of any issue or issues, except such part thereof as may be required to pay the cost of maintaining, repairing and operating such system or systems or sewer improvements and to provide such reserves therefor as may be provided in the resolution providing for the issuance

of such revenue bonds or in the trust agreement securing the same, shall be set aside at such regular intervals as may be provided in such resolution or trust agreement and deposited to the credit of the following special funds:

(a) a sinking fund which is hereby pledged to, and charged with, the payment of the principal of and the interest on such bonds as the same shall become due, and the redemption price or the purchase price of bonds retired by call or purchase as therein provided, including the accumulation of a reserve for such purposes; such pledge shall be valid and binding from the time when the pledge is made, the revenues so pledged and thereafter received by the Commission shall immediately be subject to the lien of such pledge without any physical delivery thereof or further act, and the lien of such pledge shall be valid and binding as against all parties having claims of any kind in tort, contract or otherwise against the Commission or the District, irrespective of whether such parties have notice thereof; and

(b) a fund for anticipated renewals, replacements, extensions, additions and extraordinary repairs of the sewerage system.

The use and disposition of moneys to the credit of any such sinking fund shall be subject to such regulations as may be provided in the resolution authorizing the issuance of such revenue bonds or in the trust agreement securing the same, and, except as may otherwise be provided in such resolution or trust agreement, such sinking fund shall be a fund for the benefit of such bonds without distinction or priority of one over another.

§ 29. All moneys received pursuant to the provisions of this act, whether as proceeds from the sale of bonds or as revenues, shall be deemed to be trust funds to be held and applied solely as provided in this act, and none of such moneys shall be required to be paid into the State treasury or into the treasury or to any officer of any county, city, town or other political subdivision. The Commission may provide for the payment of the proceeds of the sale of the bonds and the revenues to be received to a trustee, which shall be any trust company or bank having the powers of a trust company within or without the Commonwealth, which shall act as trustee of the funds, and hold and apply the same to the purposes of this act, subject to such regulations as this act and the Commission may provide. All such moneys shall be secured or shall be invested and reinvested, all as may be provided by the Commission.

§ 30. Any holder of bonds issued under the provisions of this act or of any of the coupons appertaining thereto, and the trustee under any trust agreement, except to the extent the rights herein given may be restricted by such trust agreement or by the resolution providing for the issuance of such bonds, may either at law or in equity, by suit, action, injunction, mandamus or other proceedings, protect and enforce any and all rights under the laws of the Commonwealth or granted by this act or under such trust agreement or such resolution and may enforce and compel the performance of all duties required by this act or by such trust agreement or resolution to be performed by the Commission or by any officer, agent or employee thereof, including the fixing, charging and collecting of rates, fees and charges for the services and facilities furnished by any sewage disposal system or systems and any sewer improvements.

Such resolution or trust agreement may also provide for the appointment of a receiver in the event of a default, who may enter upon and take possession of any facilities or property operated by the Commission, any of the revenues from the operation of which are pledged for the security of such bonds, and operate and maintain the same and fix, charge, collect and receive all rates, fees and other charges and other revenues thereafter arising from such operation in the same manner as the Commission itself might do, and shall deposit all moneys collected in a separate

§ 31. The exercise of the powers granted by this act shall be in all respects for the benefit of the inhabitants of the Commonwealth and for the promotion of their safety, health, welfare, convenience and prosperity, and as the operation and maintenance of the sewerage system by the Commission will constitute the performance of essential governmental functions, the Commission shall not be required to pay any taxes or assessments upon the sewerage system or any property acquired or used by the Commission under the provisions of this act or upon the income therefrom; and the revenue bonds issued under the provisions of this act, their transfer and the income therefrom, including any profit made on the sale thereof, shall at all times be free and exempt from taxation by the Commonwealth and by any county, city, town or other political subdivision thereof.

§ 32. The Commission shall have no power to mortgage, pledge, encumber or otherwise dispose of any part of the sewerage system of the District, except such part or parts thereof as may be no longer necessary or useful for the purposes of the Commission. The provisions of this section shall be deemed to constitute a contract with the holders of bonds of the District. The sewerage system of the District shall be exempt from any and all liability which may be incurred by, or imposed upon, the Commission or any county, city, town or political subdivision.

§ 33. Any bonds issued pursuant to the authority of this act are hereby made securities in which all public officers and public bodies of the Commonwealth and all political subdivisions thereof, all insurance companies, trust companies, banking associations, investment companies, executors, administrators, trustees and other fiduciaries, savings banks and savings institutions, including savings and loan associations, in the Commonwealth, may properly and legally invest funds, including capital in their control or belonging to them. Such bonds are hereby made securities which may properly and legally be deposited with and received by any Commonwealth or municipal officer or any agency or political subdivision of the Commonwealth for any purpose for which the deposit of bonds or obligations is now or may hereafter be authorized by law.

§ 34. The Commission shall keep and preserve complete and accurate accounts and records of all moneys received and disbursed by it and of all of its business and operations and of all property and funds owned or managed by it or under its control, and shall prepare and transmit to the Governor and to the governing body of each county, city and town which is in whole or in part embraced within the District, annually and at such other times as the Governor shall require, complete and accurate reports as to the state and content of such accounts and records, together with such information with respect thereto as the Governor may require.

§ 35. Any substantial change in the method used by the Commission for treating and disposing of sewage and industrial wastes so as to prevent the pollution of any waters within the District, shall, before being finally adopted or used by the Commission, be approved by the State Health Commissioner as effective and satisfactory for the purpose intended.

§ 36. Each county, city, town and other political subdivision in whole or in part embraced within the District and each privately or publicly owned water company shall, at the request of the Commission, make available to the Commission or the officers, agents or employees thereof, any or all maps, plans, specifications, records, books, accounts or other data or things deemed necessary by the Commission in the exercise of its powers and duties under this act.

from the District shall, if requested by the Commission, provide by its sewerage system for the treatment and disposal of sewage and industrial wastes arising in or discharged from the District and shall agree with the Commission to treat and dispose of such sewage and industrial wastes so delivered at the cost of such treatment and disposal; provided, however, the Commission shall pay to such county or city the cost of installing any additional sewerage facilities necessitated thereby within such county or city. If the parties do not agree upon such cost, such cost shall be determined upon petition to the State Corporation Commission which is hereby authorized and directed to make such determination.

§ 38. Each county, city, town or other political subdivision shall promptly pay to the Commission all rates, fees and charges which the Commission may charge to it as owner, tenant or occupant of real estate. The Commission and any county, city, town or political subdivision in whole or in part outside of the District are authorized to enter into contracts providing for or relating to the treatment and disposal of sewage or industrial wastes originating in such county, city, town or political subdivision, by means of any sewage disposal system or such other facilities as the Commission may determine to provide for such purpose, and such county, city, town or political subdivision is authorized to do everything necessary or proper to carry out and perform every such contract.

§ 39. The powers conferred by this act on counties, cities, towns and political subdivisions are in addition and supplemental to the powers conferred by any other law and may be exercised by resolution of the governing bodies thereof without regard to the terms, conditions, requirements, restrictions or other provisions contained in any other law, general or special, or in any charter, except that where rates, fees and charges are fixed by a city or town, that power shall be exercised by ordinance.

§ 40. No county, city, town or other political subdivision or person or corporation, public or private, shall discharge, or suffer to be discharged, directly or indirectly into any waters within the District any sewage, industrial wastes or other refuse which may or will cause or contribute to pollution of any such waters.

No county, city, town or other political subdivision or person or corporation, public or private, shall discharge, or suffer to be discharged, directly or indirectly, into any sewage disposal system or any other facilities of or provided by the Commission, any matter or thing which is or may be injurious or deleterious to such sewage disposal system or other facilities.

No county, city, town or other political subdivision or person or corporation, public or private, shall plan, construct or place in service any new sewer improvement in the District which will or may thereafter be served by the Commission's sewerage system and which will or may thereafter, in the opinion of the Commission, cause overloading of the sewerage system or the entrance into the sewerage system of excessive ground or surface water or other matter or thing which is injurious or deleterious to the sewerage system. In order to carry out the provisions of this paragraph every county, city, town or other political subdivision or person or corporation, public or private, if requested by the Commission to do so, shall furnish to the Commission plans and specifications for such sewer improvements and shall provide access for Commission inspection of all new sewer construction work as it proceeds and of all construction records and materials used. In addition to other powers granted the Commission, it shall have the right to refuse service to any new sewer extension or improvement constructed or operated in violation of this paragraph.

wise prevented from violating or continuing the violation of any provision of this act by injunction, mandamus or any other appropriate remedy at law or in equity, by any court of competent jurisdiction, upon action, bill, suit or other proceeding instituted by the Commission or by any attorney for the Commonwealth.

§ 42. No violation of any provision of this act shall be deemed to occur by reason of the discharge of sewage from any boat or vessel while afloat or on a marine railway or in dry dock.

§ 43. Any person violating any provision of this act shall be guilty of a misdemeanor and upon conviction shall be punished accordingly.

§ 44. No member, officer, agent or employee of the Commission shall contract with the Commission or be interested, either directly or indirectly, in any contract with the Commission, or in the sale of any property, either real or personal, to the Commission. This section shall not prevent any member, officer, agent or employee of the Commission from granting to the Commission, for a nominal consideration, any right of way, easement or lease.

§ 45. All construction contracts, except in cases of emergency, over ten thousand dollars that the Commission may let for construction or materials in connection with such construction shall be let after public advertising. The Commission shall advertise for bids for the work or materials at least ten days prior to the letting of any contracts therefor. The advertisement shall state the place where bidders may examine the plans and specifications and the time and place where bids for the work or materials will be opened. Each bidder shall accompany his bid with a certified check, payable to the Commission, for a reasonable sum to be fixed by the Commission, as a guarantee that if the contract is awarded to him, he will enter into a contract with the Commission for doing the work or furnishing the materials. The contract shall be let to the lowest responsible bidder, and the successful bidder shall give bond or other security for the faithful performance of the contract, in such form and amount as the Commission may require. The Commission is authorized to reject any and all bids. In the event that all bids are rejected, the Commission shall advertise for new bids as in the first instance. All bids and contracts shall be public records. The Commission is authorized, in its discretion, to do any and all such work by force account.

§ 46. No pecuniary liability of any kind shall be imposed upon any county, city, town or other political subdivision constituting any part of the District because of any act, agreement, contract, tort, malfeasance, misfeasance, or nonfeasance, by or on the part of the Commission, or any member of the Commission, or any of its officers, agents and employees, except as otherwise provided in this act with reference to contracts and agreements between the Commission and any county, city, town or other political subdivision.

§ 47. The Commission is authorized to appoint all agents and employees of the Commission, dismiss them, fix their salaries or remuneration, assign their positions and titles, define their respective powers and duties, and require them or any of them to give bond payable to the District in such penalty as shall be fixed by the Commission conditioned upon the faithful discharge of their duties.

§ 48. The circuit court of the county or the corporation or circuit court of the city in which any territory proposed to be added to the District is located, upon receipt of a petition of the Commission or a petition of the governing body of the territory proposed to be added to the District or a petition signed by not less than twenty-five per centum (25%) of the qualified voters residing within the limits of the territory proposed to be added to the District, or a petition signed by the owners of not less than twenty-five per centum (25%) by area of the real

property within the territory proposed to be added to the District, shall enter an order fixing the date and hour and place for a public hearing on the question of the addition of territory to the District, which order shall set forth a copy of the petition, excluding signatures, and shall describe the territory proposed to be added to the District.

A copy of such order shall be published once a week for three consecutive weeks in a newspaper of general circulation within the territory proposed to be added to the District to be designated by such court and posted in such public places within such territory as shall be designated by such court. The first of such publications and such posting shall occur not less than thirty days prior to the date fixed for such hearing.

At the time and place stated in such order, or to which an adjournment may be taken by the court, the court shall receive and hear any objections of interested persons to the addition of such territory to the District or to any defect in the petition and the court may then or thereafter grant such petition with such modifications, if any, as it may deem advisable and which do not enlarge the territory proposed to be added to the District. All such objections shall be made in writing, in person or by attorney, and filed with the court at or before the time or adjourned time of such hearing. Any such objections not so made shall be considered as waived.

If upon such hearing the court shall be of the opinion that any area proposed to be added to the District will not be benefited by the District, then said area shall not be included in the District. The order altering the boundaries of and enlarging the District shall prescribe the territory to be added to the District and fix the boundaries thereof.

From an order enlarging the District under the provisions of this section an appeal shall lie to the Supreme Court of Appeals in the manner provided by law.

If the city of Hampton, Newport News, Norfolk or South Norfolk shall hereafter annex any territory not then within the District to said city, such territory shall become a part of and be embraced within the District at such time as such annexation shall become effective.

§ 50. This act, being necessary for the welfare of the Commonwealth and its inhabitants, shall be liberally construed to effect the purposes thereof.

§ 51. If any one or more sections, clauses, sentences or parts of this act shall be adjudged invalid, such judgment shall not affect, impair or invalidate the remaining provisions thereof, but shall be confined in its operation to the specific provisions held invalid, and the inapplicability or invalidity of any section, clause, sentence or part of this act in one or more instances or circumstances shall not be taken to affect or prejudice in any way its applicability or validity in any other instance.

2. Chapter 407 of the Acts of Assembly of 1940, as amended by Chapter 353 of the Acts of Assembly of 1946 and Chapter 471 of the Acts of Assembly of 1956, and continued in effect by § 21-291, as amended, of the Code of Virginia, is hereby repealed.

3. All acts and parts of acts, general, special, private and local, inconsistent with the provisions of this act, are hereby repealed to the extent of such inconsistency.

4. An emergency exists and this act is in force from its passage.

Be it enacted by the General Assembly of Virginia:

1. That the Code of Virginia be amended by adding in Chapter 9 of Title 38.1 thereof a new article numbered 5.1 containing sections numbered 38.1-482.1 through 38.1-482.16, as follows:

Article 5.1

CREDIT LIFE INSURANCE AND CREDIT ACCIDENT AND SICKNESS INSURANCE

§ 38.1-482.1. All life insurance and all accident and sickness insurance sold in connection with loans or other credit transactions shall except as provided in § 38.1-482.12 be subject to the provisions of this article except such insurance sold in connection with a loan or other credit transaction of more than five years duration. The provisions of this article shall be controlling as to such insurance and no other provisions of this title shall be applicable unless otherwise specifically provided.

§ 38.1-482.2. As used in this article, unless the context requires otherwise, the following words or terms shall have the meanings herein ascribed to them, respectively:

(a) "Credit life insurance" means insurance on the life of a debtor pursuant to or in connection with a specific loan or other credit transaction;

(b) "Credit accident and sickness insurance" means insurance on a debtor to provide indemnity for payments becoming due on a specific loan or other credit transaction while the debtor is disabled as defined in the policy;

(c) "Creditor" means the lender of money or vendor or lessor of goods, services, property, rights or privileges, for which payment is arranged through a credit transaction or any successor to the right, title or interest of any such lender, vendor or lessor, and an affiliate, associate or subsidiary of any of them or any director, officer or employee of any of them or any other person in any way associated with any of them;

(d) "Debtor" means a borrower of money or a purchaser or lessee of goods, services, property, rights or privileges for which payment is arranged through a credit transaction;

(e) "Indebtedness" means the total amount payable by a debtor to a creditor in connection with a loan or other credit transaction;

(f) "Franchise credit life insurance" and "franchise credit accident and sickness insurance" mean that form of insurance by which a master policy is issued to and in favor of a creditor, under which policy debtors are insured at the option of the creditor, in a manner similar to, but without the necessity of issuance of, individual policies;

(g) "Credit life insurance agent" means an agent of an insurance company licensed in this State, who is authorized to solicit, negotiate or

effect credit life insurance or credit accident and sickness insurance, or both, but only to the extent as is authorized and limited in this article;

(h) "Commission" means the State Corporation Commission;

(i) "Commissioner" means the Commissioner of Insurance.

§ 38.1-482.3. Credit life insurance and credit accident and sickness insurance shall be issued only in the following forms:

(a) Individual policies of life insurance issued to debtors on the term plan;

(b) Individual policies of accident and sickness insurance issued to debtors on a term plan or disability benefit provisions in individual policies of credit life insurance;

(c) Group policies of life insurance issued to creditors providing insurance upon the lives of debtors on the term plan subject to the following requirements:

(1) The debtors eligible for insurance under the policy shall be all of the debtors of the creditor whose indebtedness is repayable either (i) in installments over a period not to exceed five years or (ii) in one sum at the end of a period not in excess of eighteen months from the initial date of debt or all of any class or classes thereof determined by conditions pertaining to the indebtedness or to the purchase giving rise to the indebtedness. The policy may provide that the term "debtors" shall include the debtors of one or more subsidiary corporations and the debtors of one or more affiliated corporations, proprietors or partnerships if the business of the policyholder and of such affiliated corporations, proprietors or partnerships is under common control through stock ownership, contract, or otherwise. No debtor shall be eligible unless the indebtedness constitutes an irrevocable obligation to repay which is binding upon him during his lifetime at the time the insurance becomes effective upon his life.

(2) The premium for the policy shall be paid by the policyholder, either from the creditor's funds, or from charges collected from the insured debtors, or from both. No policy covering debtors under obligations outstanding at the date of its issuance shall, when a part or all of the premium is to be derived from the collection from the insured debtors of identifiable charges for insurance, include in the class or classes eligible for insurance without evidence of insurability, any such debtors unless at least seventy-five per centum of the then eligible debtors elect to pay the required charges; and no such policy on which no part of the premium is to be derived from collection of such identifiable charges shall be issued unless it insures all eligible debtors, or all except any as to whom evidence of individual insurability is not satisfactory to the insurer.

(3) The policy may be issued only if the group of eligible debtors is then receiving new entrants at the rate of at least one hundred persons yearly, or may reasonably be expected to receive at least one hundred new entrants during the first policy year, and only if the policy reserves to the insurer the right to require evidence of individual insurability if less than seventy-five per centum of the new entrants become insured. The policy may exclude from the classes eligible for insurance classes of debtors determined by age.

(4) The amount of insurance on the life of any debtor shall at no time exceed the amount owed by him which is repayable in instalments to the creditor, or ten thousand dollars, whichever is less. Where the indebtedness is repayable in one sum to the creditor, the insurance on the life of any debtor shall in no instance be in effect for a period in excess of eighteen months except that such insurance may be continued for an additional period not exceeding six months in the case of default, extension or recasting of the loan. The amount of the insurance on the life of any debtor shall at no time exceed the amount of the unpaid indebtedness, or ten thousand dollars, whichever is less.

(5) The insurance shall be payable to the policyholder. Such payment shall reduce or extinguish the unpaid indebtedness of the debtor to the extent of such payment.

(d) Group policies of accident and sickness insurance issued to creditors on a term plan insuring debtors or disability benefit provisions in group credit life insurance policies to provide such coverage;

(e) Franchise master policies issued to creditors to provide life insurance coverage for debtors on the term plan; and

(f) Franchise master policies issued to creditors to provide accident and sickness insurance coverage for debtors on the term plan.

§ 38.1-482.4. (a) The amount of credit life insurance shall not exceed the initial indebtedness. Whether an indebtedness is repayable in substantially equal instalments or in a single sum, the amount of insurance shall at no time exceed the amount of the unpaid indebtedness.

(b) The total amount of periodic indemnity payable by credit accident and sickness insurance in the event of disability, as defined in the policy, shall not exceed the total amount of the initial indebtedness, nor shall any one payment of periodic indemnity exceed the initial indebtedness divided by the number of such periodic payments.

§ 38.1-482.5. The term of any credit life insurance or credit accident and sickness insurance shall, subject to acceptance by the insurer, commence on the date when the debtor becomes obligated to the creditor, except that, where a group policy or a franchise master policy provides coverage with respect to existing obligations, the insurance on a debtor with respect to such indebtedness shall commence on the effective date of the policy. The term of such insurance shall not extend more than fifteen days beyond the scheduled maturity date of the indebtedness or final instalment thereof except when extended without additional cost to the debtor. If the indebtedness is discharged due to renewal or refinancing prior to such maturity date, the insurance in force shall be terminated before any new insurance may be issued in connection with the renewed or refinanced indebtedness. In all cases of termination prior to scheduled maturity, a refund shall be paid or credited as provided in § 38.1-482.8.

§ 38.1-482.6 (a) All credit life insurance and credit accident and sickness insurance sold shall be evidenced by an individual policy, or in the case of group insurance or insurance under a franchise master policy where any part of the premium is paid by the debtors or by the creditors from identifiable charges collected from the insured debtors not required of an uninsured debtor, by a certificate or statement of insurance.

(b) Each individual policy or certificate or statement of credit life insurance, and/or credit accident and sickness insurance shall set forth the name and home office address of the insurer, the name or names of the debtor, the premium or amount of payment, if any, by the debtor separately for credit life insurance and credit accident and sickness insurance, a description of the coverage including the amount and term thereof, and any exceptions, limitations or restrictions, and shall state that the benefits shall be paid to the creditor to reduce or extinguish the unpaid indebtedness.

(c) No individual policy of credit life insurance or credit accident and sickness insurance, no group policy of credit life insurance or credit accident and sickness insurance, and no franchise master policy of credit life insurance or credit accident and sickness insurance shall be delivered or issued for delivery in this State, unless each contains in substance all of the following provisions:

(1) In each policy there shall be a provision that the policy, or the policy and application therefore, if any and if a copy of the application is endorsed upon or attached to the policy when issued, shall constitute the entire contract between the parties, and that all statements made by the

creditor or by the individual debtors shall, in the absence of fraud, be deemed representations and not warranties.

(2) In each such policy there shall be a provision that the validity of the policy shall not be contested, except for nonpayment of premiums, after it has been in force for two years from its date of issue; and that no statement made by any person insured under the policy relating to his insurability shall be used in contesting the validity of the insurance with respect to which such statement was made after such insurance has been in force for a period of two years during such person's lifetime, and prior to the date on which the claim thereunder arose.

(3) In each such policy there shall be a provision that when a claim for the death or disability of the insured arises thereunder, settlement shall be made upon receipt of due proof of such death or such disability.

(4) On the face of each such policy there shall be placed a title which shall briefly and accurately describe the nature and form of the policy.

(5) Each such policy, including rider and endorsement, shall be identified by a form number in the lower left-hand corner of the first page thereof, and no restriction, condition or provision in or endorsed on such policy shall be valid unless such provision or condition is printed in type as large as brevier or eight point type, or is written in pen and ink or typewritten in or on such policy.

(d) No individual policy of credit life insurance or credit accident and sickness insurance, no group policy of credit life insurance or credit accident and sickness insurance, and no franchise master policy of credit life insurance or credit accident and sickness insurance shall be delivered or issued for delivery in this State if it contains any provision:

(1) Limiting the time within which any action at law or in equity may be commenced to less than one year after the cause of action accrues; or

(2) To the effect that the agent soliciting the insurance is the agent of the person insured under the policy, or making the acts or representations of such agent binding upon the person so insured under the policy.

(e) Where any part of the premium is paid by the debtors, or by the creditor from identifiable charges collected from the insured debtors not required of uninsured debtors, then a copy of the individual policy or certificate or statement of insurance shall be delivered to the insured debtor at the time the insurance is effected or within five days thereafter.

§ 38.1-482.7. (a) All forms of policies, certificates of insurance, statements of insurance, endorsements and riders intended for use in this State shall be filed with the Commission.

(b) The Commission shall within thirty days after the filing of any such policies, certificates of insurance, statements of insurance, endorsements and riders, disapprove any such form if it contains provisions which are contrary to, or not in accordance with, any provision of this article or of any rule or regulation promulgated thereunder.

(c) If the Commission notifies the insurer that the form is disapproved, it is unlawful thereafter for such insurer to issue or use such form. In such notice, the Commission shall specify the reason for its disapproval and state that a hearing will be granted within twenty days after request in writing by the insurer. No such policy, certificate of insurance, statement of insurance, endorsement or rider, shall be issued or used until the expiration of thirty days after it has been so filed, unless the Commission shall give its prior written approval thereto.

(d) The Commission may, at any time after a hearing held not less than twenty days after written notice to the insurer, withdraw its approval of any such form on any ground set forth in subsection (b) above. The written notice of such hearing shall state the reason for the proposed withdrawal.

(e) No insurer shall issue such forms or use them after the effective date of such withdrawal.

§ 38.1-482.8. (a) Each insurer issuing credit life insurance or credit accident and sickness insurance shall file with the Commission its schedules of premium rates for use in connection with such insurance. Any insurer may revise such schedules from time to time, and shall file such revised schedules with the Commission. No insurer shall issue any credit life insurance policy or credit accident and sickness insurance policy for which the premium rate exceeds that shown by the schedules of such insurer as then on file with the Commission.

(b) Each individual policy, certificate or statement of insurance shall provide that in the event of termination of the insurance prior to the schedule maturity date of the indebtedness, any refund of an amount paid by the debtor for insurance shall be paid or credited promptly to the person entitled thereto; provided, however, that the Commission shall prescribe a minimum refund and no refund which would be less than such minimum need be made. The formula to be used in computing such refund shall be filed with and approved by the Commission.

(c) If a creditor requires a debtor to make any payment for credit life insurance or credit accident and sickness insurance and an individual policy or certificate or statement of insurance is not issued, the creditor shall immediately give written notice to such debtor and shall promptly make an appropriate credit to the account.

(d) The amount charged by the creditor to the debtor for any credit life or credit accident and sickness insurance shall not exceed the premium rate filed with the Commission for the coverage provided.

§ 38.1-482.9. Credit life insurance and credit accident and sickness insurance is usually effected when the creditor deems it is essential to the making of the loan or other extension of credit giving rise to such insurance, and such insurance is necessarily arranged for simultaneously with the entering into such credit transaction. In recognition of the foregoing conditions, and notwithstanding the provisions of any other statutes of this State which expressly or by construction may provide otherwise:

(a) A portion of the premium of credit life insurance or credit accident and sickness insurance may be allowed by the insurer to a creditor, its affiliate or associate or subsidiary or a director, officer or employee of any of them for providing and servicing such insurance, and such portion of the premium so allowed shall not be deemed as a rebate of premium or as interest or charges or consideration or an amount in excess of permitted charges in connection with the loan or other credit transaction; and

(b) All of the acts necessary to provide and service credit life insurance and credit accident and sickness insurance may be performed within the same place of business in which is transacted the business giving rise to the loan or other credit transaction.

§ 38.1-482.10. (a) All policies of credit life insurance and credit accident and sickness insurance shall be delivered or issued for delivery in this State only by an insurer authorized under § 38.1-85 to § 38.1-98 inclusive to do an insurance business therein, and shall be issued only through holders of licenses or authorizations issued by the Commission under § 38.1-301.1 to § 38.1-301.9 inclusive or under subsection (b) of this section.

(b) Every individual who desires to obtain a license as a credit life insurance agent shall make written application to the Commission in such form and containing such information as the Commission shall prescribe. Each such applicant shall, at the time of filing his application, pay a fee of two dollars, which shall be collected by the Commission and

paid directly into the State treasury and placed to the credit of the fund for the maintenance of the division or bureau of the Commission established for the administration of the insurance laws of the State. The fee shall not be refundable. Upon the Commission being satisfied that an applicant is of good character, that he bears a good reputation, is honest and his application shows he has sufficient knowledge of the requirements of this article to intelligently conduct the insurance business as authorized thereunder, then such applicant shall be entitled to and shall receive from the Commission a license as a credit life insurance agent. The contents and duration of such license, the annual fee therefor and the grounds and procedure for refusing, suspending or revoking such license shall be subject to the applicable provisions of § 38.1-302 to § 38.1-314 inclusive.

§ 38.1-482.11. (a) All claims shall be promptly reported to the insurer or its designated claim representative, and the insurer shall maintain adequate claim files. All claims shall be settled as soon as possible and in accordance with the terms of the insurance contract.

(b) All claims shall be paid either by draft drawn upon the insurer or by check of the insurer to the order of the claimant to whom payment of the claim is due pursuant to the policy provisions, or upon direction of such claimant to one specified.

(c) No plan or arrangement shall be used whereby any person, firm or corporation other than the insurer or its designated claim representative shall be authorized to settle or adjust claims. The creditor shall not be designated as claim representative for the insurer in adjusting claims; provided, that a group or franchise policyholder may, by arrangement with the insurer, draw drafts or checks in payment of claims due to the group or franchise policyholder subject to audit and review by the insurer.

§ 38.1-482.12. When credit life insurance or credit accident and sickness insurance is required as security for any indebtedness, the debtor shall, upon request to the creditor, have the option of furnishing the required amount of insurance through existing policies of insurance owned or controlled by him or of procuring and furnishing the required coverage through any insurer authorized to transact an insurance business within this State.

§ 38.1-482.13. (a) The Commission may, after notice and hearing, issue such rules and regulations consistent with the provisions of this article as it deems appropriate for the supervision of the regulatory provisions of this article. Every such regulation, every administrative ruling, and every requirement of general application shall be in writing and maintained as a public record in an indexed permanent book with date of each suitably indicated. A copy of each regulation and order promulgating it shall be mailed by the Commission to all insurers licensed to write insurance under this article.

(b) Whenever the Commission finds that there has been a violation of this article or any rules or regulations issued pursuant thereto, and after written notice thereof and hearing given to the insurer or other person authorized or licensed by the Commission, it shall set forth the details of its findings together with an order for compliance by a specified date. Such order shall be binding on the insurer and other person authorized or licensed by the Commission on the date specified unless sooner withdrawn by the Commission or a stay thereof has been ordered by the Supreme Court of Appeals.

§ 38.1-482.14. In addition to any other remedy, an insurer or any other person in interest considering himself aggrieved by an action of the Commissioner hereunder pursuant to authority conferred upon him or delegated to him by the Commission, may within thirty days of the action complained of, file a petition as a matter of right with the Commission to review the action. The proceedings on review shall be de novo and the

From any action taken by the Commission hereunder, whether upon petition from action taken by the Commissioner, or otherwise, any insurer, or any other person in interest considering himself aggrieved, may, as a matter of right, appeal to the Supreme Court of Appeals in the manner provided by law.

§ 38.1-482.16. In addition to any other penalty provided by law, any person who violates an order of the Commission after it has become final, and while such order is in effect, upon proof thereof to the satisfaction of the Commission, shall be subject to a fine to be imposed by the Commission, of not less than ten dollars nor more than two hundred fifty dollars, except that if such violation is found by the Commission to be willful, the amount of such fine may be in a sum not to exceed one thousand dollars. The Commission, in its discretion, may revoke or suspend the license or certificate of authority of the person guilty of such violation. All action under this section including any such order for suspension or revocation shall be upon notice and hearing.

§ 13.1-147. Any financial institution is authorized to become a member of a corporation by making application to the board of directors on such form and in such manner as the board of directors may require and membership shall become effective upon acceptance of such application by said board. Membership shall be for the duration of the corporation, provided, however, that upon written notice given to the corporation two years in advance, a member may withdraw from membership at the expiration date of such notice and shall not thereafter be obligated to make any loans to the corporation.

Each such member shall make loans to the corporation as and when called upon by it to do so, upon such terms and conditions as shall be approved from time to time by the board of directors, subject to the following conditions:

(a) All loans shall be evidenced by negotiable instruments of the corporation and shall bear interest at a rate of not less than one-half of one per cent in excess of the rate of interest determined by the board of directors to be the prime rate on unsecured commercial loans as of the date of the loan.

(b) All loan limits shall be established at the thousand dollar amount nearest to the amount computed in accordance with the provisions of this section.

(c) No loan to a development corporation shall be made if immediately thereafter the total amount of the obligations of the said corporation would exceed ten times the amount then paid in on its outstanding capital stock.

(d) The total amount outstanding at any one time on loans to a development corporation made by any member shall not exceed the following limit, to be determined as of the time such member becomes a member, on the basis of figures contained in the most recent year-end statement furnished by such member to State or federal supervisory authorities, as the case may be: Two per cent of the capital and permanent surplus of banks and trust companies; one per cent of the total outstanding loans made by a savings and loan association, or an industrial loan company; one per cent of the capital and unassigned surplus of stock insurance companies, except fire insurance companies; one per cent of the unassigned surplus of mutual insurance companies, except fire insurance companies; one-tenth of one per cent of the assets of fire insurance companies.

All loan limits shall be recomputed as of the first day of January of each even-numbered year, but no member's loan limit shall be increased as the result of such recomputation without the consent of such member.

(e) Each call for loans made by the corporation shall be prorated among the members of the corporation in substantially the same proportion that the adjusted loan limit of each member bears to the aggregate of the adjusted loan limits of all members. The "adjusted loan limit" of a member shall be the amount of such member's loan limit, reduced by the balance of outstanding loans made by such member to the corporation and the investment of such member in capital stock of the corporation at the time of such call.

(f) A member of a corporation created under this article shall not be a member of more than one such corporation.

§ 13.1-148. Each share of stock of a corporation shall have a par value of one hundred dollars, and shall be issued for cash. No preferred stock shall be issued.

Each stockholder shall be entitled to one vote, in person or by proxy, for each share of capital stock held, and each member shall be entitled to one vote, in person or by proxy, for each one thousand dollars of the authorized loan limit of such member as determined under § 13.1-147.

The rights given by this chapter to stockholders to attend meetings and to receive notice thereof and to exercise voting rights shall apply to

members as well as to stockholders of a corporation created hereunder. The voting rights of the members shall be the same as if they were a separate class of stockholders and stockholders and members shall in all cases vote separately by classes. A quorum at a meeting shall require the presence in person or by proxy of a majority of the holders of the voting rights of each class.

§ 13.1-149. The business and affairs of a corporation shall be conducted by a board of directors. The number of directors shall be a multiple of three. Two-thirds of the directors shall be elected by the members and one-third shall be elected by the stockholders. Any vacancy in the office of a director elected by the members shall be filled by the directors elected by the members and any vacancy in the office of director elected by the stockholders shall be filled by the directors elected by the stockholders.

§ 13.1-150. No amendment to the articles of incorporation shall be made which increases the obligation of a member to make loans to the corporation or which makes any change in the principal amount, interest rate, maturity date, or in the security or credit position of any outstanding loan made by a member to the corporation or which affects the right of a member to withdraw from membership or the voting rights of such member, without the consent of each member who would be affected by such amendment.

§ 13.1-151. Each year the corporation shall set apart as earned surplus not less than ten per cent of its net earnings for the preceding fiscal year until such surplus shall be equal in value to one-half of the amount paid in on the capital stock then outstanding. Whenever the amount of surplus so established shall become impaired, it shall be built up again to the required amount in the manner provided for its original accumulation.

§ 13.1-152. The rights given to stockholders under the provisions of §§ 13.1-5, 13.1-24, 13.1-80, 13.1-85 and 13.1-125 of this chapter shall apply to members as well as to stockholders of a corporation created hereunder.

§ 13.1-153. No corporation organized under the provisions of this article shall at any time be authorized to receive money on deposit. The corporation shall not deposit any of its funds in any banking institution unless such institution has been designated as a depository by a vote of a majority of the directors present at an authorized meeting of the board of directors, exclusive of any director who is an officer or director of the depository so designated.

§ 13.1-154. A corporation shall keep, in addition to the books and records required by § 13.1-47, a record showing the names and addresses of all members of the corporation and the current status of loans made by each to the corporation. Members shall have the same rights with respect to such books and records as are given to stockholders by § 13.1-47.

§ 13.1-155. Under no circumstances is the credit of the State pledged herein.

§ 13.1-156. The provisions of this article are severable, and if any of its provisions shall be held unconstitutional by any court of competent jurisdiction, the decision of such court shall not affect or impair any of the remaining provisions hereof.

(1) For all court and justice of the peace services in each distress, detinue, interrogatory summons, unlawful detainer, civil warrant, notice of motion, garnishment, attachment issued, or other civil proceeding, $3.00 unless otherwise provided in this section, which shall include the fee prescribed by § 16.1-115. *No such fee shall be collected in any tax case instituted by any county, city or town.*

The judge or clerk shall collect the foregoing fee at the time of issuing process. Any justice of the peace or other issuing officer shall collect the foregoing fee at the time of issuing process. When no service of process is had on a defendant named in any civil process other than a notice of motion for judgment, such process may be reissued once by the court or clerk at the court's direction by changing the return day of such process, for which service by the court or clerk there shall be no charge*; provided, however, reissuance of such process shall be within three months after the original return day and regardless of whether the original process was issued before or after this act takes effect.*

(2) For granting each continuance except the first of any warrant or other proceeding pending before the court, fifty cents, but if the continuance is at the instance and for the convenience of the judge, the fee shall not be charged. Such fee shall be paid by the party requesting the continuance, and shall not be taxed as a part of the costs.

The fees prescribed in this section shall be the only fees charged in civil cases for services performed by such judges and clerks, and when the services referred to herein are performed by justices of the peace such fees shall be the only fees charged by such justices for the prescribed services.

§ 60-44.—Benefit rights of individuals shall be based solely upon the benefit year as defined in § 60-8.*1*.

§ 60-45.2.—On and after * *the effective date of this section,* the maximum total amount of benefits payable to any individual during any benefit year shall be determined from the "Benefit Table" shown in § 60-42, but in no case shall such maximum exceed * *twenty* times such individual's weekly benefit amount. Such determination shall be based only upon wages earned in insured work during such individual's base period. The Commission shall maintain a separate account for each individual who subsequent to January first, 1937, earns wages in insured work. After the expiration of each calendar quarter the Commission shall credit each individual's account with the wages earned by him in insured work in such calendar quarter.

§ 60-47.—An individual shall be disqualified for benefits, but only after having served a waiting period as provided in § 60-46:

(a) For seven consecutive weeks, if it is determined by the Commission that such individual is, during any week for which he claims benefits, unemployed because he left work voluntarily without good cause.

(b) For not less than seven nor more than eleven consecutive weeks, if it is determined that such individual is, during any week for which he claims benefits, unemployed because he has been discharged for misconduct connected with his work.

(c) For not less than seven nor more than eleven consecutive weeks, if it is determined by the Commission that such individual has failed, without good cause, either to apply for available, suitable work when so directed by the employment office or the Commission or to accept suitable work when offered him. A disqualification under this subsection shall be imposed for weeks following the weeks during which any disqualification may have been imposed under subsections (a) or (b) of this section.

In determining whether or not any work is suitable for an individual, the Commission shall consider the degree of risk involved to his health, safety and morals, his physical fitness and prior training, his experience, his length of unemployment and the accessibility of the available work from his residence.

Notwithstanding any other provisions of this title, no work shall be deemed suitable and benefits shall not be denied under this title to any otherwise eligible individual for refusing to accept new work under any of the following conditions: (1) If the position offered is vacant due directly to a strike, lockout, or other labor dispute; (2) if the wages, hours or other conditions of the work offered are substantially less favorable to the individual than those prevailing for similar work in the locality; (3) if as a condition of being employed the individual would be required to join a company union or to resign from or refrain from joining any bona fide labor organization.

(d) For any week with respect to which the Commission finds that his total or partial unemployment is due to a stoppage of work which exists (1) because of a labor dispute at the factory, establishment, or other premises (including a vessel) at which he is or was last employed, or (2) because of a labor dispute at a factory, establishment or other premises (including a vessel) either within or without this State, which (a) is owned or operated by the same employing unit which owns or operates the premises at which he is or was last employed and (b) supplies materials or services necessary to the continued and usual operation of the premises at which he is or was last employed, provided that this subsection shall not apply if it is shown to the satisfaction of the Commission that:

(1) He is not participating in or financing or directly interested in the labor dispute which caused the stoppage of work; and

(2) He does not belong to a grade or class of workers of which, immediately before the commencement of the stoppage, there were members employed at the premises (including a vessel) at which the stoppage occurs, any of whom are participating in or financing or directly interested in the dispute.

Provided, that if in any case separate branches of work which are commonly conducted as separate businesses in separate premises are conducted in separate departments of the same premises, each such department shall, for the purposes of this subsection, be deemed to be a separate factory, establishment or other premises. Provided further, that mere membership in a union, or the payment of regular dues to a bona fide labor organization, shall not alone constitute financing a labor dispute.

(e) When an individual is disqualified for benefits under subsections (a) or (b) or (c) of this section, the total amount of benefits to which he may otherwise be entitled in accordance with §§ 60-41 to 60-45.*2* shall be reduced by an amount equal to the product of the number of weeks for which he shall be disqualified multiplied by his weekly benefit amount.

§ 60-67.—For each calendar year commencing after December thirty-first, nineteen hundred * *sixty*, the contribution rate of each employer, whose experience rating account has been chargeable with benefit wages throughout the most recent *twelve* completed calendar * *month period ending on the thirtieth day of June of the calendar year immediately preceding the calendar year for which a contribution rate is being determined*, shall be computed as hereinafter provided. * The Commission shall notify each such employer of his contribution rate for such calendar year not later than * *the thirty-first day of December immediately preceding such year*, but the failure of any such employer to receive such notice shall not relieve him from liability for such contribution.

§ 60-68.—Effective * *July* first, nineteen hundred * *sixty*, when in any benefit year an individual is paid benefits equal to three times his weekly benefit amount his wages during his base period shall be termed the individual's "benefit wages". If such individual's unemployment is caused by separation from an employer subject to this title, such individual's "benefit wages" shall be treated for the purposes of this article as though they had been paid by such employer in the calendar year in which such benefits are first paid. The employer from whom such individual was separated, resulting in the current period of unemployment, shall be the most recent employer for whom such individual has performed services for remuneration during thirty days, whether or not such days are consecutive. For the purposes of this article, "benefit wages" shall include only the first two thousand *five hundred* and * *sixty* dollars of wages received by any one individual from all employers in such individual's base period.

An individual's "benefit wages" shall not be treated as though they had been paid by an employer subject to this title if such employer is deemed to have paid, under this section, other "benefit wages" of such individual arising out of the same separation from work.

No "benefit wages" shall be deemed to have been paid by any employer of an individual whose separation from the work of such employer arose as a result of a violation of the law by such individual, which violation led to confinement in any jail or prison.

§ 60-70.—The "benefit wage ratio" of each employer *for a given calendar year* shall be the percentage equal to the employer's benefit wages for the * *twelve consecutive* calendar *month period ending on the thirtieth day of June immediately preceding that calendar* year, divided by the total of his * payroll for the same * *period* except that for an employer whose account has been chargeable with benefit wages for * *thirty-six* or more consecutive

§ 60-71.—For any calendar year the "State experience factor" shall be the total benefits paid from the fund during the most recent *thirty-six* consecutive completed calendar * *month period ending June 30 of the immediately preceding calendar* year, less all amounts credited to the fund in such * *period* other than employer's contributions, divided by the total of the "benefit wages" of all individuals as determined pursuant to § 60-68 during the same * *period.* In such computation any fraction shall be adjusted to the nearest multiple of one per centum.

§ 60-72.—Subject to the provision of § 60-73, the contribution rate for each employer shall be the percentage at the lowest numbered column in the following table, in which on the same line as the current state experience factor, there appears a percentage equal to the employer's benefit wage ratio, calculated to the nearest multiple of one-tenth of one per centum. If no percentage appearing in *the same line of* the table is equal to such *benefit* wage ratio the * *next highest* * percentage immediately to the right in the same line * shall determine the rate. * If no percentage equal to or in excess of such employer's benefit wage ratio appears on such line, then such employer's contribution rate shall be two and seven-tenths per centum.

If at any time during said thirty days a petition signed by electors equal in number to at least twenty per centum of the electors voting for governor at the last preceding gubernatorial election, protesting against the enactment of such ordinance and requesting its repeal, or requesting its adoption in a proposed amended form, be presented to the council, such ordinance shall thereupon be suspended from going into effect, and it shall be the duty of the council to reconsider such ordinance. (b) As used in this article, the term "insured motor vehicle" means a motor vehicle as to which there is bodily injury liability insurance and property damage liability insurance, both in the amounts specified in § 46.1-504, as amended from time to time, issued by an insurance carrier authorized to do business in this State, or as to which a bond has been given or cash or securities delivered in lieu of such insurance; or as to which the owner has qualified as a self-insurer in accordance with the provisions of § 46.1-395; and the term "uninsured motor vehicle" means a motor vehicle as to which there is no such bodily injury liability insurance and property damage liability insurance, or no such bond has been given or cash or securities delivered in lieu thereof, or the owner of which has not so qualified as a self-insurer.

§ 46.1-167.3. * *If during the period for which it is licensed a motor vehicle is or becomes an uninsured motor vehicle and the fee of twenty dollars required by § 46.1-167.1 has not been paid, the owner thereof who operates or permits the operation thereof by another person shall be guilty of a misdemeanor, punishable as set forth in § 46.1-16.*

Any person who presents or causes to be presented to the Commissioner a false certificate that a motor vehicle is an insured motor vehicle or false evidence that a motor vehicle sought to be registered is an insured motor vehicle, shall be guilty of a misdemeanor, punishable as set forth in § 46.1-16.

Provided that the foregoing portions of this section shall not be applicable if it is established that such owner or person had good cause to believe and did believe that such motor vehicle was an insured motor vehicle, in which event the provisions of § 46.1-59 shall be applicable.

Abstracts of records of conviction, as defined in this title, of any violation of any of the provisions of this section shall be forwarded to the Commissioner as prescribed by § 46.1-413.

However, when five years have elapsed from the date of the suspension herein required, the Commissioner may relieve such person of the requirement of furnishing proof of financial responsibility for the future. The presentation by a person subject to the provisions of this section of a certificate of insurance, executed by an agent or representative of an insurance company qualified to do business in this State, showing that on the date and at the time of the accident the vehicle was an insured motor vehicle as herein defined, or, presentation by such person of evidence that the additional fee applicable to the registration of an uninsured motor vehicle had been paid to the Division prior to the date and time of the accident, shall be sufficient bar to the suspension provided for in this section.

§ 46.1-167.5. ** (a) Whenever any proof of financial responsibility filed by any person as required by this article no longer fulfills the purpose for which required, the Commissioner shall require other proof of financial responsibility as required by this article and shall suspend such person's operator's and/or chauffeur's license, registration certificates and license plates pending the furnishing of proof as required.*

§ 6.12. *Action by the Council on the General Budget.*

After the conclusion of the public hearing on the general budget the council may insert new items of expenditures or may increase, decrease or strike out items of expenditure in the general fund budget, except that no item of expenditure for debt service as required by law shall be reduced or stricken out. The council shall in no event adopt a general budget in which the total of expenditures exceeds the receipts, estimated as hereinbefore provided, unless at the same time it adopts measures for providing additional revenue in the ensuing fiscal year, estimated as hereinbefore provided, sufficient to make up the difference.

§ 6.13. *Adoption of Budget.*

The budget shall be adopted by the votes of at least a majority of all the members of the council. The budget shall be finally adopted not later than the last day of the last month of the fiscal year. Should the council take no final action on or prior to such day, the budget, as submitted, shall be deemed to have been finally adopted by the council.

§ 6.14. *Effective Date of General Fund Budget; Certification; Copies Made Available.*

Upon final adoption, the general fund budget shall be in effect for the ensuing fiscal year. A copy of such budget as finally adopted shall be certified by the city manager and city clerk and filed in the office of the director of finance. The general fund budget so certified shall be printed, mimeographed or otherwise reproduced and sufficient copies thereof shall be made available for the use of all departments, courts, boards, commissions, offices and agencies and for the use of interested persons and organizations.

§ 6.15. *Transfer of Appropriations.*

At the request of the city manager, but only within the last six months of the fiscal year, the council may, by resolution, transfer any unencumbered balance or portion thereof in any general fund appropriation from one department, board, commission, office or agency to another.

§ 6.16. *School Budget.*

It shall be the duty of the school board to file its budget estimates with the city manager. The action of the council on the school budget shall relate to its total only and the school board shall have authority to expend in its discretion the sum appropriated for its use, provided that if it receives an appropriation greater or less than its original request it shall forthwith revise its estimates of expenditure and adopt appropriations in accordance therewith. The school board shall have power to order during the course of the fiscal year transfers from one item of appropriation to another.

§ 6.17. *Additional Appropriations.*

An appropriation in addition to those contained in the general appropriation ordinance, except for the purpose of meeting a public emergency as provided for elsewhere in this charter, may be made by the council, by not less than a majority affirmative vote of the members present, only if there is available in the general fund a sum unencumbered and unappropriated sufficient to meet such appropriation.

§ 6.18. *Appropriations to Lapse.*

Any portion of an annual appropriation remaining unexpended and unencumbered at the close of the fiscal year shall lapse, except that any balance remaining in the funds of the school board at the end of the fiscal year shall remain to the credit of that board and an estimate of any such balance shall be included in the school budget of the ensuing year as an estimated receipt.

§ 6.19. *Certification of Funds.*

No payment shall be made and no obligation incurred by or on behalf of the city except in accordance with an appropriation duly made; pro-

No payment shall be made from or obligation incurred against any allotment or appropriation unless the director of finance shall first certify that there is a sufficient unexpended and unencumbered balance in such allotment or appropriation to meet the same; provided that nothing herein shall be taken to prevent the advance authorization of expenditures for small purchases as provided in this charter. Every payment made in violation of the provisions of this charter shall be deemed illegal and every official who shall knowingly authorize or make such payment or knowingly take part therein and every person who shall knowingly receive such payment or any part thereof shall be jointly and severally liable to the city for the full amount so paid or received. If any officer, member of a board or commission, or employee of the city shall knowingly incur any obligation or shall authorize or make any expenditure in violation of the provisions of this charter or knowingly take part therein, such action shall be cause for his removal.

§ 6.20. *Reserve for Permanent Public Improvements.*

The council may, by ordinance, establish a reserve fund for permanent public improvements and may appropriate thereto any portion of the general fund cash surplus not otherwise appropriated at the close of any fiscal year. It may likewise assign to the said fund a specified portion of the ad valorem tax on real estate and tangible property not to exceed ten cents on the hundred dollars of the assessed valuation thereof or the whole or part of the proceeds of any other tax. Appropriations from the said fund shall be made only to finance permanent public improvements.

CHAPTER 7

§ 7.1. *Borrowing Power.*

The council may, in the name and for the use of the city, incur indebtedness by issuing its negotiable bonds or notes for the purposes, in the manner provided in this chapter, and to the extent provided in this chapter and under the general law.

§ 7.2. *Purposes for Which Bonds or Notes May Be Issued.*

(a) *To finance capital projects.* Bonds, and notes in anticipation of bonds when the issue of bonds has been authorized as hereinafter provided, may be issued for the purpose of financing the whole or any part of the costs of any capital improvement project which is hereby defined to include any public improvement or utility which the city is authorized to undertake, including the acquisition of any property, real or personal, incident thereto, the construction or reconstruction in whole or in part of any building, plant, structure or facility necessary or useful in carrying out the powers of the city, and the equipment or reequipment of the same.

(b) *To anticipate the collection of revenue.* Notes may be issued when authorized by the council, at any time during the fiscal year in anticipation of the receipt of taxes and revenue of the current fiscal year.

(c) *To finance increased operating expenses.* Notes to be repaid within four years of the date of issuance may be issued when authorized by the council for the purpose of meeting increased operating expenses, including debt service, provided, however, that no notes shall be issued pursuant to the authority of this section after January 1, 1965.

may be issued, when authorized as hereinafter provided, for the purpose of funding such notes or other obligations incurred in accordance with such appropriation.

(e) *To refund outstanding bonds.* Bonds may be issued, when authorized as hereinafter provided, for the purpose of refunding bonds, provided that the director of finance shall certify in writing that such refunding is necessary to prevent default on the interest or principal of the city's outstanding bonds.

§ 7.3. *Limitation on Indebtedness.*

In the issuance of bonds and notes, the city shall be subject to the limitations as to amount contained in § 127 of the Constitution of the Commonwealth.

§ 7.4. *Notes in Anticipation of Bonds and Revenue.*

Whenever an issue of bonds for any capital improvement project has been authorized as hereinafter provided, the director of finance, when authorized by ordinance, shall have power to issue notes of the city in anticipation of such bonds, for the purpose of defraying the whole or any part of the cost of such project. Such notes in anticipation of bonds shall be authenticated by the signature of the director of finance and shall mature not later than two years after the date of issue. They shall be paid at maturity from the proceeds of the sale of the bonds in anticipation of which they have been issued; provided, however, the city may in its discretion, retire any such loans by means of current revenues, special assessments, or other funds, in lieu of retiring them by means of bonds. Notes in anticipation of revenues shall be authorized by the council by ordinance. They shall be authenticated by the signature of the director of finance and shall mature not later than twelve months after the date of issue. If not paid at maturity, the amount of such unpaid notes shall be included as an appropriation in the general fund budget for the ensuing fiscal year.

§ 7.5. *Form and Term of Bonds.*

All bonds shall be in serial form payable, as consecutively numbered, in annual installments, the first of which shall be payable not more than five years from the date of issue of such bonds. Bonds shall be authenticated by the seal of the city attested by the facsimile signature of the city clerk and by the signatures of the city manager and director of finance or by the city manager and city treasurer, if the city manager and the director of finance are the same person. All bonds shall be made payable within the probable life of the improvement or undertaking on account of which they are to be issued or, if the bonds are to be issued for several improvements or undertakings, within the average probable life of such improvements or undertakings. In the case of a bond issue for several improvements, or undertakings having different probable periods of usefulness, the council shall determine the average of said periods, taking into consideration the amount of bonds to be issued on account of each purpose, and the period so determined shall be the average period of usefulness. The determination of the council as to the probable life of any such improvement or undertaking shall be conclusive. The probable life of no public improvement shall be considered over thirty years, except that the possible life of public buildings other than school houses, may be forty years; concrete bridges, forty years; and parks or other real estate, fifty years.

§ 7.6. *Restrictions on Loans and Credits.*

The credit of the city shall not directly, or indirectly, under any device or pretense whatsover, be granted to or in aid of any person, association or corporation.

§ 7.7. *Issuance of Bonds; How Authorized.*

Upon the adoption of an ordinance authorizing the issuance of bonds and a resolution fixing the form and details thereof which may be finally adopted at the meeting at which it is introduced, which may be a regular or special meeting, by a majority of the members of the entire council, and which need not be published or posted, a certified copy of the same shall be filed with the corporation or circuit court having jurisdiction over the city, or to the judge thereof in vacation. A notice setting forth (1) in brief and general terms the purpose or purposes for which the bonds are to be issued, and (2) the amount of such bonds and, if bonds are to be issued for more than one purpose, the amount for each purpose, except that with respect to bonds for school purposes the amount of each separate purpose is not required, shall be published once in a newspaper having a general circulation in the city within ten days after such filing. For a period of thirty days after the date of the filing with the corporation or circuit court having jurisdiction over the city of a certified copy of the resolution of the governing body of the city authorizing the issuance of bonds and fixing the form and details thereof any person in interest shall have the right to contest the validity of such bonds or the taxes to be levied for the payment of the principal of and the interest on such bonds or the rates, rents, fees and other charges for the services and facilities furnished by or for the use of or in connection with the project or the pledge of the revenues or receipts of the project or any provisions which may be recited in such resolution or in any trust agreement securing the bonds, or any amendment thereof, or any matter therein contained or provided for or done or to be done pursuant thereto. If such contest shall not have been begun within the thirty days' period, the authority to issue the bonds, the validity of the taxes necessary to pay the principal of and the interest on the bonds, and the validity of any other provision contained in such resolution or any such trust agreement and all proceedings in connection with the authorization and the issuance of the bonds shall be conclusively presumed to have been legally taken and no court shall have authority to inquire into such matters and no such contest shall thereafter be instituted.

§ 7.8. *Procedure for Sale of Bonds and Notes.*

All bonds issued under this charter shall be sold at public sale upon sealed proposals after at least ten days' notice published at least once in a publication carrying municipal bond notices and devoted primarily to financial news or to the subject of state and municipal bonds, published in the City of New York, New York, and at least ten days' notice published at least once in a daily newspaper of general circulation or published in the City of Colonial Heights. The terms of the sale of bonds shall be approved by the council by resolution. Notes in anticipation of bonds, in anticipation of revenue, or to provide for emergency expenditures, when authorized by the council, may be sold by the director of finance, with the approval of the city manager, at private sale without prior public offering.

§ 7.9. *Contents of the Bond Ordinance.*

An ordinance authorizing the issuance of bonds shall include a statement of the purpose or purposes of the issue, and if the purpose is to finance one or more capital improvement projects, it shall describe each of them sufficiently for purposes of identification, and shall estimate the cost of the project or projects and the portion thereof to be defrayed from sources, specifying them, other than the proposed bond issue. The bond ordinance shall also include the amount of the proposed issue, a statement showing the proposed issue to be within the limitation of indebtedness as provided in § 7.3., the length of time for which they are to run, the maximum rate of interest to be paid thereon, the probable life of the purpose or the average probable life of the purposes to be financed, as determined by council, and a declaration that principal of and interest on the proposed

All other matters relating to the authorization, issuance or sale of the bonds or notes may be provided by resolution. Any such ordinance may be amended by ordinance at any time before the bonds to be affected by such amendment have been sold. All other matters relating to such bonds may be determined by resolution within the limitations prescribed by such ordinance or by this charter.

§ 7.10. *Payment of Bonds and Notes.*

The power and obligation of the city to pay any and all bonds and notes hereafter issued by it pursuant to this charter, except revenue bonds, as provided in § 7.12, shall be unlimited, and the city shall levy ad valorem taxes upon all taxable property within the city for the payment of such bonds or notes and interest thereon, without limitation of rate or amount. The faith and credit of the city are hereby pledged for the payment of the principal of and the interest on all bonds and notes of the city hereafter issued pursuant to this chapter, except revenue bonds, as provided in § 7.12, whether or not such pledge be stated in the bonds or notes or in the bond ordinance authorizing their issuance.

§ 7.11. *Sinking Fund.*

There shall be a sinking fund for the amortization of the outstanding term bonds of the city. It shall consist of the cash and securities in the sinking fund at the effective date of this charter, the sums hereinafter required to be paid into such fund and the interest earned on investments. There shall be paid into the sinking fund annually the sum determined by the director of finance, and by him certified to the city manager for inclusion in the budget, to be necessary on actuarial principles to amortize such term bonds at maturity. The sinking fund may be invested in bonds or other direct obligations of the city, the Commonwealth, or the United States, or loaned upon unencumbered real estate, within the State, upon a basis not exceeding sixty-five per centum of the fair cash value of such real estate, or invested in other securities approved by the general laws of the State for the investment of such funds, or deposited in any bank or banks on a reasonable rate of interest. Such sinking funds may be used in the payment or purchase and redemption of all of its bonds. The council may require of any bank or banks receiving on deposit its revenues or any of its sinking funds a fidelity bond. The management of the sinking fund from the effective date of this charter shall be entrusted to a board of sinking fund commissioners which shall consist of the director of finance, city manager, and two qualified voters of the city skilled and experienced in banking and investment who shall be appointed by the council for terms of four years, provided that of those first appointed, one shall serve for two years and one for four years. Vacancies shall be filled by the council for the unexpired portion of the term.

§ 7.12. *Revenue Bonds.*

In addition to the authority to issue bonds otherwise provided in this chapter, and in addition to the authority of Section 127 (b) of the Constitution of Virginia, the council may, in the manner provided for the issuance of other bonds and subject to the limitations of this chapter, except that the faith and credit of the city need not be pledged to their payment and except as hereinafter provided, authorize the issuance of revenue bonds to be secured by mortgage upon the property of the city devoted to the use of a revenue-producing utility, project or enterprise and the interest and principal of which may be paid exclusively from the revenues of such utility, project or enterprise; provided that such issue need not be limited to a term of thirty years.

§ 8.1. *Department of Finance.*

The city council may by ordinance create a department of finance which shall include the functions of accounting and control, budgeting, purchasing, the collection of taxes, special assessments and other revenues, and such other functions as may be provided by ordinance or by orders of the director of finance consistent therewith.

§ 8.2. *Director of Finance—Appointment.*

The head of the department of finance shall be known as the director of finance, and council may by ordinance provide that the director of finance shall be the City Treasurer, or City Manager, or it may establish a director of finance separate from the City Treasurer or City Manager as the case may be. The director of finance shall have general management and control of the functions of the department. He shall appoint and remove, subject to the provisions of Chapter 9 of this charter, all officers and employees of the department, excepting Constitutional officers, and shall have power to make rules and regulations consistent with this charter and the ordinances of the city for the conduct of its business. He shall have charge, subject to the direction and control of the city manager, of the administration of the financial affairs of the city, except those of the school board, unless specified in this chapter, and to that end shall have authority and be required to:

(g) Audit before payment, for legality and correctness, all accounts, claims and demands against the city, and no money shall be drawn from any bank account of the city or school board except by warrant or check, signed by the director of finance, based upon a voucher duly approved by him as above provided.

lection of charges for the use of water and sanitary sewers, by some officer or agency and except as otherwise provided by this charter or the general laws of the Commonwealth as the same may relate to the city. In so doing, he shall have power to employ any procedure that is now or may hereafter be prescribed by law for the collection of State taxes or local taxes. There shall be a lien, which shall have precedence over any other lien or encumbrance thereon, on all real estate and on each and every interest therein, for the city taxes assessed thereon, from the commencement of the year for which they are assessed, including penalties and interest on such taxes, which may be enforced by the city treasurer on behalf of the city in any manner provided by law. All goods and chattels wheresoever found may be distrained and sold for taxes, interest and penalties assessed and due thereon and for taxes, interest and penalties assessed against the owner thereof, and no deed of trust or mortgage upon goods or chattels shall prevent the same from being distrained and sold for taxes or levies assessed against the grantor in such deed while such goods and chattels remain in the grantor's possession; nor shall any such deed prevent the goods and chattels conveyed from being distrained and sold for taxes or levies assessed thereon, no matter in whose possession they may be found. He shall have power to enforce the provisions of this charter and the ordinances of the city with regard to licenses and license taxes, to check any or all of records of the commissioner of revenue and to examine and audit the books of all persons, firms and corporations whom he has reasonable cause to believe to be liable to pay a license. He shall have custody of all funds belonging to the city and the school board and deposit all funds coming into his hands to the account of the city or the school board, as the case may be, in such banks as may be designated for the purpose by the council and the school board, respectively, subject to the laws of the Commonwealth applicable to the city and school board relative to the deposit of public funds. He shall perform such other duties, including validating of school board warrants or checks, have such powers and be liable to such penalties as are now or may hereafter be prescribed by law or ordinance.

§ 8.5. *Commissioner of Revenue.*

The commissioner of revenue shall perform such duties not inconsistent with the laws of the Commonwealth in relation to the assessment of property and licenses as may be required by the council for the purpose of levying city taxes and licenses. He shall have power to administer such oaths as may be required by the council in the assessment of license taxes or other taxes for the city. He shall make such reports in regard to the assessment of both property and licenses, or either, as may be required by the council or by the director of finance. The council may by ordinance require that all tax bills shall be made out by the commissioner of revenue and delivered in such manner as said ordinance may prescribe.

§ 8.6. *Sale of Property for Taxes.*

The council may require real estate in the city, delinquent for the nonpayment of taxes, to be sold for said taxes, as provided in the Code of Virginia, except that if at any such sale no bid shall be made for any such real estate, or such bid shall not be equal to the tax or assessment, with interest, charges and expenses, then such real estate shall be struck off to the city. As soon as practicable thereafter, the city treasurer shall prepare a statement of sales made to the city, in which the real estate so sold shall be described, and the aggregate amount of tax or assessment with interest, charges and expenses specified.

(a) The owner of any real estate so struck off to the city, his heirs or assigns, or any person having the right to charge such real estate for a debt, or any person having interest in such real estate by way of reversion, remainder or otherwise, may redeem the real estate within three years

from the sale thereof, by payment to the city of the amount for which it was sold, with such additional sums as would have accrued for taxes thereon if it had not been purchased for the city, with interest on the purchase money and taxes at the rate of six per cent per annum from the time that they may have been so paid.

(b) In case that any real estate, struck off to the city as hereinbefore provided, shall not be redeemed within the time specified, the city treasurer may, at the direction of the council, within sixty days after the expiration of three years from the sale, cause to be recorded in the Clerk's Office of the Circuit Court having jurisdiction of the city a certificate of sale with his oath that the same has not been redeemed, and thereupon the city, or its assignee, shall acquire an absolute title in fee in chancery proceedings to such real estate, and every interest therein, subject to be defeated only by proof that the taxes for which said real estate was sold were not properly chargeable thereon, or that the taxes properly chargeable thereon had been paid at the time of the execution of such certificate. The said certificate shall be recorded in the said Clerk's Office in a record book known as "deed book, recording conveyances to city lands sold for delinquent taxes", for recording which certificate the clerk shall be entitled to a fee of ten cents, payable out of the city treasury. The council may impose penalties upon its officers for their failure to comply with the requirements of this section. The said certificate, or the record thereof, or a certified copy thereof, shall, in all courts and other places, be evidence of the facts therein stated; provided, however, that the failure to obtain or record such certificate shall not invalidate the lien of the city for all taxes assessed against such real estate, but the city may, at any time, elect to enforce its lien for taxes in a court of equity and real estate. When real estate is sold at a tax sale, it shall be continued upon the land books in the name of the former owner or owners until there is a transfer of title of record and taxes and levies shall be annually extended thereon the same as if such tax sale had not taken place.

(c) When land sold for delinquent taxes or struck off to the city is redeemed by persons under disability at the time of sale, in addition to the payments otherwise required for redemption, the person or persons so redeeming the land shall pay to the purchaser, his heirs or assigns, the appraised value of any improvement that may have been made thereon after three years from the date of the sale for delinquent taxes.

§ 8.7. *Correction of Assessments and Exoneration of Taxes.*

(a) The officer or board responsible for making any assessment of taxes or levies, or the director of finance, may require the production of the books and records of any taxpayer containing information concerning the tax liability of such taxpayer for the purpose of verifying or amending or correcting the assessment of city taxes for any tax year of the three tax years last past or for the then current tax year. The council may provide by ordinance for the issuance of a summons requiring the production of the taxpayer's books and records and for the imposition of fines and penalties for the failure to obey such summons.

(b) If the officer or board responsible for making any assessment or the director of finance ascertain that any taxpayer has not been assessed with taxes of any kind for any tax year of the three tax years last past or for the then current tax year, or that said taxpayer has been assessed with taxes of any kind at less than the law required for or during any one or more for such years, or that the said taxes for any cause have not been realized, it shall be the duty of the officer or board responsible for making the assessment or the director of finance, upon his or its own examination and audit, to assess the taxpayer with his or its own examination and audit, to assess the taxpayer with the taxes at the rate or rates prescribed for said year or years and in cases where the error has been due to the

failure of the taxpayer to file a proper return, or in cases of omitted taxes upon lands, and excluding cases where the erroneous assessment has been due to the mistake of the assessing officer, to include in such assessment penalties and interest as may be prescribed by the council, not to exceed, however, a penalty of five per cent of the tax and interest upon said tax and penalty at the rate of six per cent per annum from the time when such tax would have borne a penalty for nonpayment had it been regularly assessed and remained unpaid, and the council may provide for the imposition of additional interest not to exceed interest upon the entire assessment at the rate of six per cent per annum from the date of assessment, if such assessment be not paid within thirty days after its date.

(c) If in the regular course of the audit of such taxpayer's records the officer or board responsible for making any assessment and the director of finance ascertain that the amount of license taxes assessed against the taxpayer for any one or more of said years is in excess of the amount of license taxes which should have been assessed against said taxpayer upon a correct computation thereof, then the director of finance, with the approval of the city attorney, may refund out of the city treasury the excess of such taxes erroneously assessed if said excess be paid or exonerate the taxpayer from the payment of said excess if the excess be not paid. If the officer or board responsible for making the assessment, or the director of finance, ascertain that there be additional liability for one or more years and also an excessive assessment for one or more years, then the excess of one assessment may be credited against the deficiency of the other assessment and the taxpayer be assessed with the net deficiency or be refunded the next excess if paid or exonerated from the payment of the net excess if unpaid, by order of the director of finance, with the approval of the city attorney.

(d) Any person, firm or corporation assessed with any local tax or levy and who is aggrieved thereby may, at any time within one year from the thirty-first day of December of the year in which such assessment is made apply to the officer or board making such assessment for a correction of said assessment. Notice of such application shall also be given to the director of finance and the city attorney, and if the officer or board making such assessment, with the approval of both the director of finance and the city attorney, be satisfied that such person, firm or corporation has been erroneously assessed with any such tax or levy, then the director of finance, with the approval of the city attorney, may order the officer or board making such assessment to correct the assessment and it shall be the duty of said officer or board to make such correction in accordance with the orders of the director of finance, with the approval of the city attorney. The director of finance, with the approval of the city attorney, shall have the power to order that the taxpayer be exonerated from the payment of so much as is erroneously charged if unpaid, and if said assessment be paid, then the director of finance, with the approval of the city attorney, shall have the power to order the refund of the excess of said assessment out of the treasury of the city. But where it is shown to the satisfaction of the officer or board making such assessment, with the approval of both the director of finance and the city attorney, that there has been a double assessment in any case, one of which assessments is proper and the other erroneous, and that a proper single tax has been paid thereon, the director of finance, with the approval of the city attorney, may order that such erroneous assessment be corrected whether the erroneous tax has been paid or not, and even though the application be not made within the one year as hereinbefore required. The remedy granted by this section shall be in addition to the right of any taxpayer to apply within the time prescribed by law to the proper court as provided by law for the correction of erroneous assessments of the taxes described in this section, and application

may be made to the proper court irrespective of whether such applicant has or has not theretofore made application to the officer or board making such assessment for the correction of any such assessment. The approval or withholding of approval by the city attorney in the matters provided for in § 8.7. (c) and 8.7. (d) shall relate only to the legality of the proposed action.

§ 8.8. *Annual Assessment and Equalization of Assessments.*

The council shall have the power to provide for the annual or quadrennial assessment and equalization of assessments of real estate for local taxation as provided in the general law, and the council with the approval of the State Commissioner of the Revenue may authorize the commissioner of revenue to act as the assessor provided therein, and provided further that application for relief from assessments may be made to the circuit court of corporation court of appropriate jurisdiction.

§ 8.9. *City Purchasing Agent.*

The city council shall, by resolution, designate the city manager or director of finance as city purchasing agent, or it may, at its discretion, appoint any other qualified person as city purchasing agent. In selecting the city purchasing agent, consideration shall be given to the applicant's experience in private business purchasing, or governmental purchasing, or comparable kind of institutional purchasing, and property control and accountability. He shall, pursuant to the provisions of this charter and to such rules and regulations consistent therewith as may be established by the council, purchase for the use of the city and all its departments, bureaus, boards, commissions, offices, and agencies, hereinafter in this chapter referred to as "using agencies", including the city school board, but not excluding any other bureau, agency or official of said city, which purchases anything on behalf of said city, all supplies, materials, equipment, medicines and drugs, legal and scientific books and periodicals, and printing of legal briefs; manuscripts, maps, charts, sheet music, phonograph records, books, pamphlets and periodicals, when ordered by a city public library; such perishable articles and other articles as may be designated in the rules and regulations established by ordinance; and such supplies, materials, equipment and contractual services as may be required by any using agency in an emergency as defined in the said rules and regulations. The services of the purchasing agent shall be available to the school board whenever it wishes to make use thereof.

§ 8.10. *Further Powers and Duties of Purchasing Agent.*

The purchasing agent, for the purpose of giving effect to the provisions of the preceding section, shall have the following powers and duties:

(a) To establish, with the approval of the city manager, and after consultation with the heads of the using agencies concerned, and enforce standard specifications for all supplies, materials and equipment required by the city government except as to the purchases exempted above.

(b) To prescribe the time of making requisitions for such supplies, materials, and equipment and the future period which said requisitions are to cover.

(c) To inspect or cause to be inspected, all deliveries of such supplies, materials and equipment, and to cause tests to be made, when necessary, in order to determine their quality, quantity and conformance with specifications.

(d) To supervise and control such central storerooms, workshops, garages and repair shops as the council may provide by ordinance to serve the several using agencies or any of them.

(e) To transfer to or between using agencies, sell or trade-in supplies, materials and equipment determined by him, with the approval of the city manager and after consultation with the head of the using agency concerned, to be surplus, obsolete or unused.

(f) To maintain an adequate system of accounting for all property received and all property issued by the bureau of purchasing, in accordance with accepted principles of accounting for property and inventory control, and to maintain such inventory of all movable property belonging to the city, as may be required by the council.

(g) To perform such duties with regard to the letting of contracts for public works or improvements as are provided in Chapter 12 of this charter and to have such other powers and duties as may be provided by ordinance.

§ 8.11. *Competitive Bidding.*

Before making a purchase or contract, the purchasing agent shall give opportunity for competitive bidding under such rules and regulations as may be established by the council. All single purchases or contracts which shall involve an expenditure of five hundred dollars or less shall, whenever practicable, be based on three or more competitive bids which may be informal, but of which there shall be a written record, and shall be awarded to the lowest responsible bidder, except as hereinafter provided. If any single purchase or contract involves an expenditure of more than five hundred dollars, it shall be made on the basis of sealed bids after such public notice as may be prescribed by the council. The city manager, however, shall have the power in respect of all purchases or contracts involving an expenditure of ten thousand dollars or less, and the council in all other cases, to authorize the purchasing agent to reject any or all bids, to readvertise for bids, or to make the purchase or contract in the open market after the rejection of all bids. The council shall further have power in the rules and regulations provided for in § 8.9. to authorize the purchasing agent, with the approval of the city manager, to purchase or make contracts for professional services and for services for which the rate or price is fixed by a public authority authorized by law to fix rates or prices, without recourse to competitive bidding. All sales by the purchasing agent shall be made on the basis of competitive bids after such public notice as may be prescribed by the council, and all sales shall be to the highest responsible bidder. A record of all bids, showing the names of the bidders and the amounts of the bids and indicating in each case the successful bidder, together with the originals of all sealed bids and other documents, pertaining to the award of contracts, shall be preserved by the purchasing agent for six years in a file which shall be open to public inspection during regular business hours. No transaction which is essentially a unit shall be divided for the purpose of evading the intent of this section.

§ 8.12. *Accounting Control of Purchasing.*

All purchases made and contracts executed by the purchasing agent shall be pursuant to a written requisition, in such form as may be prescribed by the director of finance, from the head of the using agency whose appropriation is to be charged, or from the head of a bureau or other operating unit to whom such authority has been delegated in writing, filed with the purchasing agent, except as provided in subsection (f) of § 8.3. of this charter, by the head of the using agency. No purchase order made or contract entered into by the purchasing agent shall be valid unless there be endorsed thereon the certificate of the director of finance that there is an unexpended and unencumbered balance in the appropriation and allotment applicable thereto. Nothing herein, however, shall be taken to prevent the purchasing agent from making purchases from a store's revolving fund which the council is hereby authorized to establish, or from making sales from the stores to the several using agencies based on their requisitions, provided the director of finance certified that there is an unexpended and unencumbered balance in the appropriation to be charged.

§ 9.3. *Classified Service.*

The classified service shall comprise all positions, including those in the police and fire departments not specifically included by the preceding section in the unclassified service.

§ 9.4. *Appointment and Removal.*

All original appointments to positions in the classified service shall be for a probationary period. The probationary period shall be one year, but at any time prior to the conclusion of the probationary period of any employee, his services may be terminated by the officer having the power of appointment to the position, if, in the opinion of such officer, the employee does not possess the qualifications to perform satisfactorily the duties of the position. Upon the conclusion of the probationary period, no employee shall be suspended for more than sixty days, reduced in rank or pay, or removed, except after notice in writing of the grounds of the proposed action. Such notice shall be from the officer who has the power of appointment to the position. The decision of the city manager (or for positions not under his appointing power, the decision of the appointing officer) shall in all cases be final.

§ 9.5. *Tenure.*

An employee who has been continued in employment after the conclusion of the probationary period may not, so long as he continues in the employ of the city, be required to serve a new probationary period upon appointment or transfer to a position not involving different skills.

§ 9.6. *Rules.*

Within six months after this charter becomes effective, the city manager shall prepare and recommend to the council such rules as he may consider necessary to carry out the provisions of this chapter with respect to persons in the classified service. The council shall cause to be published at least once in a newspaper of general circulation in the city, a notice of the time and place of a public hearing to be held on such proposed rules, to take place not less than five days after the publication of such notice. Thereafter, the council shall reject or adopt the rules recommended by the city manager with such modifications as it may deem advisable. Amendments to the rules may be adopted from time to time after public hearing as above provided, but no change in the rules shall be set for hearing which has not been recommended by the city manager unless the same shall have first been referred to him for his opinion at least ten days prior to such hearing. The rules and amendments thereof so adopted shall have, to the extent that they are consistent with the terms of this charter, the force of law. Among other things, they shall provide for the administration of the classification plan and pay plan; hours of work, vacations, sick leaves and other leaves of absence; overtime pay; the order and manner in which layoffs shall be effected; procedure on appeals from orders of suspension or removal or other disciplinary action; and such other matters as may be necessary to provide adequate and systematic handling of the personnel affairs of the city.

§ 9.7. *Classification Plan.*

The city manager first appointed shall, within seven months after his appointment, prepare, after consultation with all officers having the power of appointment, and submit to the council a plan of classification and grading for all positions in the classified service according to similarity of authority, duties and responsibilities. The council shall hold a public hearing thereon, at least ten days' notice of which shall be given by publication in a newspaper of general circulation in the city, and within thirty days after the submission of the plan by the city manager, it shall reject or adopt the same with or without modifications. Changes in the classification plan may thereafter be recommended from time to time by the city manager and shall take effect when approved by the council. When the specifications of any job are changed or a new position created the city manager shall recommend the necessary changes in the classification plan. After the adoption of the classification plan the class title set forth therein shall be used to designate such positions in all official records, documents, vouchers and communications, and no person shall be appointed to or employed in a position in the classified service under any class title which has not been recommended by the city manager and approved by the council as appropriate to the duties to be performed. Employees affected by the allocation or reallocation of a position to a class or by any changes in the classification plan shall be afforded an opportunity to be heard thereon by the city manager after filing a request for such hearing. After such hearing, the decision of the city manager shall be final.

§ 9.8. *Pay Plan.*

There shall be a pay plan consisting of a salary range for each class of position in the classification plan, which shall provide for regular increments within such range to be earned by length of service upon certification of satisfactory service by the supervisor. Each such range shall be determined with due regard to the salary ranges for other classes and to the relative difficulty and responsibility of characteristic duties of positions in the class, the minimum qualifications required, the prevailing rate paid for similar employment outside the city service, and any other factors that may properly be considered to have a bearing upon the fairness or adequacy of the range. The city manager shall prepare within thirty days after the adoption of the classification plan by the council a pay plan as described above which shall be transmitted to the council, with his recommendations. The council shall have power to adopt the same by ordinance with or without modifications. When so adopted by the council the pay plan shall remain in effect until amended by the council. When a pay plan has been adopted, the council shall not increase or decrease the salaries of individual members of the classified service but shall act in fixing the salaries of members of the classified service only by amendment of the pay plan.

§ 9.9. *Status of Present Employees.*

All persons holding positions in the service of the city at the effective date which are included by this chapter in the classified service, shall immediately become members of the classified service, upon certification by the city manager with the approval of the council. Nothing in this section, however, shall be deemed to limit the power of the council by ordinance to abolish any position, or positions, or to establish a classification plan affecting any position in the classified service, or to adopt a pay plan altering the compensation thereof.

§ 17.9. *Further Planning Powers and Duties of the Commission.*

The commission shall have power to promote public interest in and understanding of the plan, and to that end may publish and distribute copies of the plan or any report relating thereto, and may employ such other means of publicity and education as it may determine. The commission shall consult and advise with public officials and agencies, public utility companies, civic, educational, professional or other organizations, and with citizens, with relation to the protection or carrying out of the plan. All public officials shall, upon request, furnish to the commission within a reasonable time, such available information as it may require for its work. The commission, its members, officers and employees in the performance of their duties, may enter upon any land in the city and make examinations and surveys, and place and maintain necessary monuments and markers thereon. In general, the commission shall have such powers as may be necessary to enable it to fulfill its function, promote planning and carry out the purposes of this charter. The commission shall make an annual report to the council concerning its activities.

§ 17.10. *Zoning Powers.*

In addition to the powers granted elsewhere in this charter, the council shall have the power to adopt by ordinance, a comprehensive zoning plan designed to lessen congestion in streets; secure safety from fire, panic and other danger; promote health, sanitation and general welfare; provide adequate light and air; prevent the overcrowding of land; avoid undue concentration of population; facilitate public and private transportation and the supplying of public utility services and sewage disposal, and facilitate public and private transportation and the supplying of public utility services and sewage disposal, and facilitate provisions for schools, parks, playgrounds and other public improvements and requirements. The comprehensive zoning plan shall include the division of the city into districts with such boundaries as the council deems necessary to carry out the purposes of this chapter, and shall provide for the regulation and restriction of the use of land, buildings, and structures in the respective districts and may include, but shall not be limited to, the following:

(a) It may permit specified uses of land, buildings and structures in the districts and prohibit all other uses.

(b) It may regulate the heights, area, bulk, size, design and appearance of buildings and structures and the appropriateness of their use in the districts.

(c) It may establish setback building lines and prescribe the area of land that may be used as front, rear and side yards and courts and open spaces.

(d) It may restrict the portion of the area of lots that may be occupied by buildings and structures.

council shall be provided on lots for parking of vehicles in conjunction with permitted uses of land and that spaces and facilities deemed adequate by the council shall be provided on lots for off-street loading or unloading of vehicles.

(g) It may permit the designed use and development of land not less than ten acres in extent in a manner varying in certain respects from the regulations and restrictions prescribed for the district or districts in which such land is situated, provided that such designed use shall be approved by the city planning commission and the council, and adopted as a part of the master plan of the city.

(h) It may provide that land, buildings and structures and the uses thereof which do not conform to the regulations and restrictions prescribed for the district in which they are situated may be continued so long as the then existing or more restricted use continues and so long as the buildings or structures are maintained in their then structural condition; and may require that such buildings or structures and the use thereof shall conform to the regulations and restrictions prescribed for the district or districts in which they are situated whenever they are enlarged, extended, reconstructed or structurally altered; and may require that such buildings or structures and the use thereof shall conform to the regulations and restrictions prescribed for the district or districts in which they are situated, in any event, within a reasonable period of time to be specified in the ordinance.

§ 17.11. *Considerations to Be Observed in Adoption and Alteration of Regulations.*

The regulations and restrictions shall be enacted with reasonable consideration, among other things, of the character of each district and its peculiar suitability for particular uses, and with a view of conserving the value of land, buildings and structures and encouraging the most appropriate use thereof throughout the city. Upon the enactment of the ordinance dividing the city into districts and regulating and restricting the use of land, buildings and structures therein in accordance with a comprehensive zoning plan; no land, building or structure shall be changed from one district to another district unless the change is in accord with the interest and purposes of this section and will not be contrary to the comprehensive zoning plan and the enumerated factors upon which it is based and the regulations and restrictions applicable to the districts involved in the change. Aside from extensions from an existing zone to immediately adjoining or adjacent properties, no change in district boundaries shall be made so as to include less than the entire area fronting on the same street in one block, but such change need not include such portions of corner lots as may be within one hundred feet of the streetline of the intersecting streets which bound the block, and in blocks where the frontage on the same street is seven hundred feet or more, the change need not include more than three hundred and fifty continuous feet thereof.

§ 17.12. *Duties of the City Planning Commission with Relation to Zoning.*

It shall be the duty of the city planning commission to prepare and submit to the council a comprehensive zoning plan as referred to in § 17.10 and from time to time prepare and submit such changes in or revisions of the said plan as changing conditions may make necessary.

§ 17.13. *Adoption and Amendment of Regulations and Restrictions and Determination of District Boundaries.*

Subject to the other provisions of this chapter, the council shall have power by ordinance to adopt the regulations and restrictions hereinbefore described and determine the boundaries of the districts in which they shall apply, provide for their enforcement, and from time to time, amend, supplement or repeal the same. The council shall also have authority to provide

for the collection of fees to cover at least the costs involved in the consideration of any request for amendment, supplement or repeal of any such regulations, restriction or determination of boundaries, to be paid to the city clerk by the applicant upon filing such request. No such ordinance or amendment shall be adopted until: (a) the ordinance or amendment has been referred to the city planning commission and approved by it, subject to overrule by the council, as provided in § 17.7; and (b) until after a public hearing in relation thereto shall be held by the council at which the parties in interest and other persons shall have an opportunity to be heard. At least fifteen days' notice of the time and place of such hearing shall be given by publication thereof in a newspaper of general circulation in the city.

§ 17.14. *Effect of Protest by Twenty Per Cent of the Owners of Property.*

If a protest is filed with the city clerk against such amendment, supplement or repeal, signed and acknowledged before a person authorized to administer oaths, by the owners of twenty per cent or more of the total area of the lots included in such proposed change or of the total area of the lots outside of the proposed change, any point in which is within one hundred and fifty feet of the boundary of such area, the council shall not adopt the ordinance making such amendment, supplement or repeal, except by the votes of two-thirds of the entire council.

§ 17.15. *Board of Zoning Appeals. Composition.*

There shall be a board of zoning appeals which shall consist of five regular members and one alternate. They shall be qualified voters of the city, shall hold no office of profit under the city government and shall be appointed by the council for terms of four years; provided that the members of the board of zoning appeals in office at the effective date of this charter shall continue to hold office until the first day of January following the expiration of the terms for which they were appointed, and the first alternate member shall be appointed to serve until the said date; and provided, further, that the council shall appoint two regular and one alternate member to serve for two years, and three regular members to serve for four years from said date. Thereafter, their successors shall be appointed for full terms of four years. Vacancies shall be filled by the council for the unexpired portion of the term. A regular or alternate member may be removed by the council for neglect of duty or malfeasance in office, upon written charges and after public hearing. Members of the board of zoning appeals shall serve without compensation.

§ 17.16. *Board of Zoning Appeals. Organization.*

The board shall elect a chairman and a vice-chairman from among its regular members for a term of one year who shall be eligible for reelection. The chairman shall preside at all meetings of the board and, in his absence, the vice-chairman or other member designated by the board shall act as chairman and shall preside. The board shall appoint a secretary and such other employees as may be needed for the conduct of the work of the board. The alternate member may take the place of any regular member who is absent or disqualified, in hearing and determining any matter before the board.

§ 17.17. *Board of Zoning Appeals. Procedure.*

The meetings of the board shall be held at the call of the chairman and at such other times as the board may determine. The board shall keep minutes of its proceedings showing the vote of each member on each question or, if absent, or failing to vote, indicating such fact, and shall keep records of its examinations and other official actions, all of which shall be filed in the office of the board and shall be a public record.

§ 17.18. *Appeals to Board of Zoning Appeals.*

Appeals to the board may be taken by any person aggrieved, or by

any officer, department, board, commission or agency of the city affected, by any decision of the administrative officer designated by the council to administer and enforce the ordinance dividing the city districts and regulating and restricting the use of land, buildings and structures therein. Appeals shall be taken within such reasonable time as shall be prescribed by the board by general rule, by filing with the said administrative officer and with the board a notice of appeal specifying the grounds thereof. The administrative officer shall forthwith transmit to the board all the papers constituting the record upon which the action appealed from was taken. An appeal stays all proceedings in furtherance of the action appealed from unless the administrative officer from whose decision the appeal is taken certifies to the board that by reason of the facts stated in the certificate a stay would, in his opinion, cause imminent peril to life or property. In such case, proceedings shall not be stayed otherwise than by a restraining order which may be granted by the board or by a court of record on application and on notice to the administrative officer and on due cause shown.

The board shall fix a reasonable time for the hearing of the appeal, give public notice thereof, as well as due notice to the parties in interest and decide the issue within a reasonable time. At the hearing, any party may appeal in person, by agent, or by attorney, and shall be given an opportunity to be heard. The board may prescribe a fee to be paid whenever an appeal is taken which shall be paid into the city treasury.

§ 17.19. *Powers of Board of Zoning Appeals.*

The board shall have the following powers and it shall be its duty:

(a) To hear and decide appeals where it is alleged there is error in any order, requirement, decision or determination by the administrative officer in the administration and enforcement of the provisions of the ordinance.

(b) To grant variations in the regulations when a property owner can show that his property was acquired in good faith and where by reason of the exceptional narrowness, shallowness or shape of a specific piece of property at the time of the effective date of the ordinance or where by reason of the exceptional topographical conditions or other extraordinary or exceptional situation, the strict application of the terms of the ordinance actually prohibit or unreasonably restrict the use of the property, or where the board is satisfied, upon the evidence heard by it, the granting of such variation will alleviate a clearly demonstrable hardship approaching confiscation, as distinguished from a special privilege or convenience sought by the owner; provided, however, that all variations granted shall be in harmony with the intended spirit and purpose of this chapter and the ordinance.

(c) To permit, when reasonably necessary in the public interest, the use of land, or the construction or use of buildings or structures, in any district in which they are prohibited by the ordinance, by any agency of the city, county or state or the United States, provided such construction or use shall adequately safeguard the health, safety and welfare of the occupants of the adjoining and surrounding property, shall not unreasonably impair an adequate supply of light and air to adjacent property, shall not increase congestion in streets and shall not increase public danger from fire or otherwise affect public safety.

(d) To permit such other exceptions or grant variances from the strict application of the terms of the zoning regulations under the principles, standards, rules, conditions, and safeguards set forth in the zoning ordinance, provided they are determined to be consistent with the general purpose and intent of such ordinance.

§ 17.20. *Form and Scope of Decisions by Board of Zoning Appeals.*

In exercising the powers conferred upon it, the board may reverse or

affirm, wholly or partly, or may modify the order, requirement, decision or determination appealed from, and may make such order, requirement, decision or determination as should be made and to that end shall have all the powers of the administrative officer charged by the ordinance with enforcement. The concurring affirmative vote of three members of the board shall be necessary to reverse any order, requirement, decision or determination of the administrative officer or to decide in favor of the applicant in any matter of which it has jurisdiction. The board shall act by formal resolution which shall set forth the reason for its decision and the vote of each member participating therein, all of which shall be spread upon its records and shall be open to public inspection. The board may, upon the affirmative vote of three members, reconsider any decision made and, upon such reconsideration, render a decision by formal resolution. Every decision of the board shall be based upon a finding of fact based on sworn testimony, which finding of fact shall be reduced to writing and preserved among its records.

§ 17.21. *Appeals from Board of Zoning Appeals.*

Any person, firm or corporation, jointly or severally aggrieved, or in fact affected by any decision of the board of zoning appeals, or any officer, department, board or agency of the city government charged with the enforcement of any order, requirement or decision of said board, may appeal from such decision by filing a petition in the court of appropriate jurisdiction, verified by affidavit, setting forth the alleged illegality of the action of the board and the grounds thereof. The petition shall be filed within thirty days from the date of the decision of the board. No appeal from the decision of the board shall be allowed in any case involving the same petitioner, principles, property and conditions, previously passed upon by such court.

§ 17.22. *Procedure on Appeal.*

Upon filing of the petition, the court may cause a writ of certiorari to issue directed to the board, ordering it to produce within the time prescribed by the court, not less than ten days, the record of its action and documents considered by it in making the decision appealed from, which writ shall be served upon any member of the board. The issuance of the writ shall not stay proceedings upon the decision appealed from, but the court may, on application, notice to the board and due cause shown, issue a restraining order. The board shall not be required to produce the original record and documents, but it shall be sufficient to produce certified or sworn copies thereof or of such portions thereof as may be required by the writ. With the record and documents, the board may concisely set forth in writing such other facts as may be pertinent and material to show the grounds of the decision appealed from, verified by affidavit.

§ 17.23. *Powers and Duties of the Court.*

The court shall review the record, documents and other matters produced by the board pursuant to the issuance of the writ and may reverse or modify the decision reviewed, in whole or in part, when it is satisfied that the decision of the board is contrary to law or that its decision is arbitrary and constitutes an abuse of discretion.

§ 17.24. *Proceedings against Violators of Zoning Ordinance.*

Whenever any building or structure is erected, constructed, reconstructed, altered, repaired or converted, or whenever any land, building or structure is used in violation of any ordinance adopted in accordance with § 17.13, the city may institute and prosecute appropriate action or proceedings to prevent such unlawful act and to restrain, correct or abate such violation or to prevent any unlawful act, conduct or use of such property.

§ 17.25. *Penalties for Violation of Zoning Ordinance.*

The council may, in such ordinance, provide that fines and jail sentences, either or both, shall be imposed for violations of the ordinance

by owners of land, buildings or structures, their agents having possession or control of such property, lessees, tenants, architects, builders, contractors or any other persons, firms or corporations or who maintain any land, building or structure in which such violations exist, which penalties shall not exceed those prescribed in Title 16.1 Chapters 6 and 7 of the Code of Virginia in force on November 1, 1959.

§ 17.26. *Land Subdivision.*

In order to provide for the orderly subdivision of land within the city, there is hereby conferred upon the city the power to adopt regulations and restrictions relative to the subdivision of land in the manner hereinafter provided. Such regulations and restrictions may prescribe standards and requirements for the subdivision of land which may include, but shall not be limited to, the following: the location, size and layout of lots so as to prevent congestion of population, to provide for light and air, and to prevent the hazard of inundation, the width, grade, location, alignment and arrangement of streets and sidewalks with relation to other existing streets, planned streets and the master plan; access for fire-fighting apparatus; adequate open spaces; adequate and convenient facilities for vehicular parking; easements for public utilities; reservation or dedication of suitable sites for schools, parks and playgrounds; planting of shade trees and shrubs; naming and designation of streets and other public places; laying out, construction and improving streets, alleys and sidewalks, the installation of public utilities and other physical improvements therein and the conditions under which the cost thereof shall be borne by the developer; and provisions for the guarantee of payment by the developer for the required improvements; procedure for making variations in such regulations and restrictions; requirements for preparing and recording plats of subdivisions including their size, scale, contents and other matters; and for the erection of monuments of specified type for making and establishing property and street, alley, sidewalk and other lines.

§ 17.27. *Hearing on Subdivision Ordinance.*

The council shall not adopt or amend any ordinance establishing such regulations and restrictions until notice of intention so to do has been published once a week for two successive weeks in a newspaper of general circulation in the city. The notice shall specify the time, not less than ten days after final publication, and the place at which persons affected may appear before the council and present their views.

§ 17.28. *Adoption of Regulations and Restrictions Applicable Only within the City Limits.*

After hearing, as above provided, the council may adopt by ordinance any such regulations and restrictions applicable within the limits of the city which, when recorded in the office of the clerk of the circuit court of the county, shall be in full force and effect.

§ 17.29. *Approval of Plats of Subdivision.*

The planning commission shall be the platting commission of the city, and, as such, shall have control of the platting or subdivision of land within the city. From and after the date on which such regulations and restrictions become effective in the city, the owners of tracts of land to which such regulations and restrictions are applicable, who subdivide them into two or more lots, shall cause plats of such subdivision, in the form prescribed by the applicable regulations and restrictions, to be made and submitted to the city planning commission. It shall be the duty of such commission to consider such plat in the light of the regulations and restrictions applicable to the same and approve or disapprove the plat in accordance therewith. Before taking any action thereon, the city planning commission shall afford the owner and other interested parties an opportunity to be heard after such reasonable notice as may be provided in such regulations and restrictions. Failure to act on any plat for a period

of forty-five days shall be deemed to constitute approval unless a petition in a proper court has been filed as hereinafter provided in this section. Approval shall be attested on that plat by the signature of the chairman or vice-chairman of the city planning commission.

§ 17.30. *Recording of Plats of Subdivision.*

From and after the date on which such regulations and restrictions become effective in the city, no plat of any subdivision to which such regulations and restrictions are applicable shall be received or recorded by the clerk of any court unless the plat has been approved as provided in the preceding section. No owner of land in the city in which such regulations and restrictions are applicable, who has subdivided the same into two or more lots, shall sell or offer for sale any such lot by reference to or exhibition of or by the use of a plat of such subdivision or otherwise before the plat of such subdivision has been approved as provided in the preceding section and has been recorded in the office of the clerk of the court or courts in which a deed conveying such lot would be required to be recorded.

§ 17.31. *Penalty for Transfer of Lots in Unapproved Subdivisions.*

Whoever being the owner or agent of the owner of any land in a subdivision subject to such regulations and restrictions, the plat of which has not been approved and recorded as above provided, shall transfer, sell or offer for sale or agree to sell any lot in such subdivision by reference to or exhibition of an unapproved and unrecorded plat or otherwise, shall forfeit and pay a penalty of one hundred dollars for each lot or similar parcel of land transferred or agreed or negotiated to be sold; and the description of such lot or parcel by metes and bounds in the instrument of transfer of other document used in the process of selling or transferring shall not exempt the transaction from such penalty or from the remedies herein provided. The city may enjoin such transfer or sale or agreement by proceedings for injunction brought in a court having jurisdiction of the land to which the injunction applies. The city in which any lot transferred, sold or offered for sale in violation of this chapter is situated, may recover the penalty provided therefor in a civil action brought in a court in whose jurisdiction such lot is situated, for the benefit of the city. In the absence of intent to evade the provisions of this section, the penalty may be waived in the case of an attempted transfer by will.

§ 17.32. *Transfer of Portion for Public Use.*

The recordation of the plat shall operate to transfer in fee simple to the city such portion thereof as is on the plat set apart for streets, alleys, easements or other public use or purpose and to create a public right of passage over or use of the same. The owner or owners of the land subdivided may construct, reconstruct, operate and maintain with the consent of the city where the land lies, sewer, gas and water pipes or electric lines along or under the streets, alleys, easements or other land devoted to public use further than is reasonably necessary to construct, reconstruct, repair, operate and maintain such works.

§ 17.33. *Vacation of Plats.*

Any plat or part thereof recorded may be vacated, with the consent of the council by the owners thereof at any time before the sale of any lot therein, by a written instrument declaring the plat to be vacated, which shall be duly executed, acknowledged and recorded in the clerk's office wherein the plat to be vacated is recorded. The execution and recordation of the instrument shall operate to destroy the force and effect of the recording of the plat and to divest all public rights in and to reinvest the owners with the title to the streets, alleys, easements and other land devoted to public use laid out or described in the plat. In cases where lots have been sold, the plat or part thereof or any unaccepted or abandoned street, or street recommended by the Planning Commission for vacation

may be vacated according to the procedure provided in §§ 15-766, 15-766.1, 15-766.2 and 15-766.3 of the Code of Virginia as amended, for the alteration and vacation of streets and alleys. The clerk in whose office any plat so vacated has been recorded shall write in plain, legible letters across the plat or part thereof vacated the word "vacated", and also make a reference on the plat to the volume and page thereof in which the instrument of vacation is recorded.

§ 17.34. *Use of Street for Twenty Years—Dedication—*

Whenever any piece, parcel or strip of land shall have been opened to and used by the public as a street, alley, lane or other public place or part thereof for the period of twenty years, the same shall thereby become a street, alley, lane, public place or part thereof for all purposes, and the city shall have the same authority and jurisdiction over and right and interest therein that it has by law over the streets, alleys, lanes and public places laid out by it, and thereafter no action shall be brought to recover such piece, parcel or strip of land so opened to and used by the public as aforesaid. Any street, alley, lane or other public place reserved in the division or subdivision into lots within the corporate limits of the city by a plat or plan of record shall be deemed and held to be dedicated to the public use and the council shall have authority, upon the petition of any person or corporation interested therein, to open such street, alley, lane or other public place or any portion of the same. No agreement between, or release of interest by, persons or corporations owning the lands immediately contiguous to any such street, alley, lane or other public place, whether the same has been opened or used by the public or not, shall avail or operate to abolish such street, alley, lane or other public place or to divest the interest of the public therein or the authority of the council over the same.

§ 17.35. *Present Master Plan, Comprehensive Zoning Plan and Subdivision Ordinance.*

The master plan, the comprehensive zoning plan, and subdivision ordinance as heretofore adopted, approved and filed, with all amendments, additions and extensions thereto, in force and effect at the effective date of this charter are hereby validated and confirmed as if the same had been prepared, adopted, approved and filed in accordance with the provisions of this chapter. Every amendment or addition thereto or extension thereof and every other master plan, comprehensive zoning ordinance, or subdivision ordinance henceforth adopted shall be in accordance with the provisions of this chapter. Where existing ordinances are at variance with the provisions of this chapter, they shall be deemed to be amended in accordance with the provisions of this chapter.

Be it enacted by the General Assembly of Virginia:

1. That §§ 77 and 78 of Chapter 580 of the Acts of Assembly of 1954, approved April 6, 1954, be amended and reenacted as follows:

§ 77. The council may appoint pursuant to the provisions of § 16-129 of the Code of Virginia, a * *police justice* for the town who shall serve for a term of two years or until his successor is appointed by the council and qualifies. The mayor, or any * qualified voter of the town of Elkton, *the city of Harrisonburg, Rockingham County, or any town in Rockingham County, whom the* council deems qualified, may be appointed by it as such * *police justice.* If the mayor is appointed as * *police justice* he shall discharge such duties as the * *police justice* of the town under this charter and not as mayor of the town, in addition to the execution of the duties of the mayor imposed upon him by this charter; and his powers, duties, authority and jurisdiction as such * *police justice* shall be as hereinafter provided for the * *police justice;* he may receive the salary of mayor provided by the council for the discharge of his duties as mayor as well as such salary of * *police justice* as may be provided by the council, if any.

violations of all ordinances of the town shall be paid into the town treasury for the use and benefit of the town.

Removals may be taken, and appeals from the decisions of the * *police justice* may be taken, to the Circuit Court of Rockingham County in the same manner, upon the same terms and shall be tried in the same way as removals, or as appeals from the decision of * *police justices*, as the case may be, are provided to be taken and tried by the laws of the State of Virginia, relating to * *police justices* as the same shall now be or as hereafter amended.

The council may also appoint such clerk or clerks as may in their discretion be necessary, provide for just compensation therefor and provide necessary records.

The council of said town shall provide a salary to compensate such * *police justice* in such amount and payable at such times as the council shall deem proper, and the council may provide also for a vacation period, either with or without pay, and for such duration as in the judgment of the council may be proper.

Like provisions may be made for a substitute justice, and when such substitute acts, he shall receive the compensation which would have been paid him had the principal acted, and which compensation shall be deducted from salary or allowance made to the principal. *

§ 78. The council may elect one or more special justices of the peace to be known as warrant justices, who shall hold office during the pleasure of the council and shall have such powers as are hereby conferred, and no other. Such warrant justice or justices shall, at the time of his or their election, and while holding such office, reside in the town, and no person shall be ineligible to such office by reason of the fact that at the time of his election or while holding such office he is an officer or employee of the State or town unless to be justice of the peace while holding such office or employment is contrary to the general laws and Constitution of the State.

Every warrant justice, before entering upon the performance of his duties, shall take the official oaths required by State law before the clerk of the circuit court of the county.

Every warrant and attachment within the jurisdiction conferred upon the * *police justice* by this charter may be issued by one of such warrant justices, but every warrant so issued shall be made returnable before the * *police justice* and shall, unless otherwise provided by law, be triable only by him, or by the substitute * *police justice*, and every attachment so issued shall be made returnable before the * *police justice* or the circuit court of the county, as the law directs. Any such warrant justice may also issue subpoenas for witnesses in cases to be tried by the * *police justice*.

In the absence of the * *police justice* of the town, each warrant justice shall have the same power to admit to bail persons as the * *police justice* would have under general law of the State if present, shall collect the fees therefor and shall report and pay same to the officer authorized to collect fines imposed by the * *police justice*.

Such warrant justice or justices shall receive such salary or other compensation as the council may from time to time prescribe by ordinance, but no officer or employee in any department of the town government who may be elected warrant justice shall receive any salary or other compensation as such justice while he holds such other office or continues in such other employment, unless and until the council specifically provides for such salary or other compensation by ordinance.

[H 312]

Approved March 9, 1960

Be it enacted by the General Assembly of Virginia:

1. That §§ 2, 3, 4, 6, 7, 9 and 16 of Chapter 456 of the Acts of Assembly of 1956, approved March 30, 1956, be amended and reenacted as follows:

§ 2. The territory embraced within the * town of Vienna is * *that* territory in the county of Fairfax, * *Virginia, as established in Chapter 456 of the Acts of Assembly of 1956 as modified by the final order of the Circuit Court of Fairfax County, Virginia, recorded in the Common Law Order Book No. 39, page 99.*

§ 3. The administration and government of the town is vested in a council composed of a mayor and six councilmen, all of whom shall be electors of the town.

(a) * *On the second Tuesday in June, 1960, there shall be held a town election at which there shall be elected by the qualified electors of the town at large, six councilmen and a mayor. The three councilman candidates receiving the highest number of votes shall serve for terms of three years and the three candidates receiving the next highest number of votes shall serve for terms of two years.*

In the town election to be held on the second Tuesday in June, nineteen hundred sixty-two, and in every year thereafter, three councilmen shall be elected for terms of two years each.

The term of office for the mayor shall continue to be for a period of two years. Terms of office for both the mayor and all councilmen shall begin on the first day of September next following his or their election.

The council shall be a continuing body and no measures pending before such body, or *any* contract or obligation incurred, shall abate or be discontinued by reason of the expiration of *the* term of office or removal of any of its members.

(b) Vacancies in the council shall be filled within * *forty-five* days, for the unexpired term, by a majority vote of the remaining members; subject, however, to the mayor's right of veto, and the right of a two-thirds majority of the remaining members of said council to override said veto by a polled vote as provided by the Constitution of the Commonwealth of Virginia; *provided, however, that where a vacancy shall occur more than eighteen months prior to expiration of the term, such vacancy shall be filled by a majority vote of the remaining members only until a successor shall have been chosen by the qualified electors of the town and shall have qualified as provided by law. In the town election to be held on the second Tuesday in June next following the occurrence of such vacancy there shall be elected by the qualified electors of the town a member of the council to fill each such vacancy for the unexpired term. Upon the failure of any council, after being qualified to appoint such officers and employees all of such officers and employees then in office shall so continue in office until removed by that or a succeeding council. The same person may be appointed to fill two offices at the discretion of the council.

§ 6. The mayor shall be the chief executive officer of the town and it shall be his duty to see that the laws and ordinances thereof are fully executed, and he shall preside over the meetings of the council, appoint all necessary committees or departments for the proper dispatch of the business of the town. However, the mayor, as a member of the council, shall vote only in case of a tie; in addition to his constitutional power of veto. The mayor shall see that the duties of the various officers *and all employees including policemen,* whether elected or appointed, are faithfully performed. He shall have power to investigate their acts, have access to all books and documents in their office and may examine them on oath, and dismiss or suspend them from office, subject to the right of the council to reinstate such officers * *and employees, including policemen, by a majority of the council present and voting.*

In case of the absence or inability of the mayor to act, the president pro tempore of the council, to be chosen by a majority of the council present at a regular meeting, shall possess the same powers, and discharge the same duties during such absence or inability.

In case a vacancy should occur in the office of mayor, same shall be filled by any qualified voter for the unexpired term by a majority vote of the council.

The council of said town is hereby authorized to fix the salary of the mayor, members of the council, and all appointed officers and employees of said town, at a sum not to exceed any limitations placed by the laws and Constitution of the State of Virginia; *provided that the salary of the mayor shall not be fixed at an amount greater than one thousand dollars a year and the salary of each member of council shall not be fixed at an amount greater than six hundred dollars a year.*

§ 7. * *The town court shall be known as the Municipal Court of the town of Vienna, and shall have original jurisdiction in the trial of all cases involving the violation of town ordinances, and in the collection of taxes or assessments, or other forms of debt owing to the town.*

Jurisdiction of the said Court in civil matters shall be as provided in Section 16.1-77 of the Code of Virginia, and in criminal matters as provided in Section 16.1-124 of the Code of Virginia.

There shall also be appointed not more than three justices of the peace for the town of Vienna, to serve at the pleasure of said council, who shall be conservators of the peace, and shall have the power and authority to set and accept bonds, issue warrants and summon witnesses involving violations of town ordinances, but all such warrants and process shall be returnable before the Municipal Court. The compensation of such justices of the peace shall be the fees which are fixed by law for such justices.

§ 9. The council shall have the power to control and manage the fiscal and municipal affairs of the town and all property, real and personal, belonging to said town, and to make such ordinances, orders, and resolutions relating to the same as it may deem necessary. And it shall have the further power to purchase, hold, sell and convey all real and personal property, within or without, the corporate limits, necessary for its use and purposes.

(a) The council shall have power and authority to acquire, or other-

(b) In the event the fees, rents, or charges, charged for the use and services of the public water system or sewage disposal system, by, or in connection with, any real estate shall not be paid when due, interest shall at the time begin to accrue thereon at the rate of one percent per month. Such fees, rents, and charges, and the interest due thereon may be recovered by the town of Vienna by action at law, or suit in equity, and shall constitute a lien against the property, ranking on a parity with liens for unpaid town or county taxes.

(c) The council shall have the power and authority to require the owners or occupants of the real estate within the corporate limits of the town which may front or abut on the line of any sewer or water pipe line or conduit to make connections therewith, and to use such sewer pipes and conduits and water furnished by the town under such ordinances and regulations as the council may deem necessary to secure the proper service thereof and to improve and secure good sanitary conditions; and shall have the power to enforce the observance of all such ordinances and regulations by the imposition and collection of fines and penalties, to be collected as other fines and penalties under the provisions of this act.

(d) The council shall have the authority if it so chooses, to delegate in writing to a duly appointed town manager such of its powers and duties as are not forbidden by State law to be delegated, and may withdraw any such delegation of power or duties at its discretion; the mayor shall have like authority in relation to his powers and duties.

§ 8. The Authority shall have the power to issue bonds from time to time in its discretion, for any of its purposes, including the payment or retirement of bonds previously issued by it. The Authority may issue such types of bonds as it may determine, including (without limiting the generality of the foregoing) bonds payable, both as to principal and interest: (a) from its revenues generally; (b) exclusively from the income and revenues of a particular "facility", which term shall mean a particular building or structure or particular buildings or structures including all equipment, appurtenances and accessories necessary or appropriate for the operation of such facility; or (c) exclusively from the income and revenues of certain designated facilities whether or not they are financed in whole or in part from the proceeds of such bonds. The bonds may be sold at public or private sale.

§ 11. In case any of the commissioners or officers of the Authority whose signatures appear on any bonds or coupons shall cease to be such commissioners or officers before the delivery of such bonds, such signatures shall, nevertheless, be valid and sufficient for all purposes, the same as if such commissioners or officers had remained in office until such delivery. Any provision of any law to the contrary notwithstanding, any bonds issued pursuant to this act shall be fully negotiable within the meaning and for all the purposes of Chapter 10 of Title 6 of the Code of Virginia.

§ 12. In order to secure the payment of such bonds the Authority shall have power by provision or provisions included in any resolution authorizing such bonds or in any indenture made to secure their payment:

(i) To vest in a trustee or trustees or the holders of bonds or any proportion of them the right to enforce the payment of the bonds or any covenant securing or relating to the bonds; to vest in a trustee or trustees the right, in the event of a default by the Authority, to take possession and use, operate and manage any facility or part thereof, and to collect the rents and revenues arising therefrom and to dispose of such moneys in accordance with the agreement of the Authority with said trustee; to provide for the powers and duties of a trustee or trustees or the holders of bonds or any proportion of them who may enforce any covenant or rights securing or relating to the bonds.

(j) To exercise all or any part or combination of the powers herein granted; to make covenants other than and in addition to the covenants herein expressly authorized, of like or different character; to make such covenants and to do any and all such acts and things as may be necessary or convenient or desirable in order to secure its bonds, or in the absolute discretion of said Authority, as will tend to make the bonds more marketable notwithstanding that such covenants, acts or things may not be enumerated herein.

§ 13. An obligee of the Authority shall have the right in addition to all other rights which may be conferred on such obligee, subject only to any contractual restrictions binding upon such obligee:

(a) By mandamus, suit, action or proceeding at law or in equity to compel the Authority and the commissioners, officers, agents or employees thereof to perform each and every term, provision and covenant contained in any contract of the Authority with or for the benefit of such obligee, and to require the carrying out of any or all such covenants and agree-

(b) By suit, action or proceedings in equity, to enjoin any acts or things which may be unlawful, or the violation of any of the rights of such obligee of the Authority.

§ 14. The Authority shall fix and revise from time to time the rents, fees and other charges to be paid by persons for the use of the various facilities of the Authority and for any other service furnished or provided by the Authority. Such rents, fees and charges shall be fixed so as to provide at least sufficient funds to pay the cost of maintaining, repairing and operating such facilities and the principal and interest of any bonds issued by the Authority or other debts contracted as the same shall become due and payable. A reserve may be accumulated and maintained out of the revenues of such Authority for extraordinary repairs and expenses and for such other purposes as may be provided in any resolution authorizing a bond issue or in any trust indenture securing such bonds. Subject to such provisions and restrictions as may be set forth in the resolution or in the trust indenture authorizing or securing any of the bonds or other obligations issued hereunder, the Authority shall have exclusive control of the revenues derived from any facility or facilities operated and controlled by it and the right to use such revenues in the exercise of its powers and duties as set forth in this section. No individual, firm, association or corporation shall receive any profit or dividend from the revenues, earnings or other funds or assets of such Authority other than for debts contracted, for services rendered, for materials and supplies furnished and for other value actually received by the Authority.

§ 15. In addition to the other powers conferred by this act, the Authority shall have the power to borrow money and to accept contributions, grants and other financial assistance from the federal government and agencies or instrumentalities thereof for or in aid of the construction and equipment of its facilities or the retirement or refunding of its bonds. To these ends the Authority shall have the power to comply with such conditions and to execute such mortgages, trust indentures and agreements as may be necessary, convenient or desirable.

§ 16. Nothing contained in this act shall be deemed to authorize the Authority to occupy or use any land, streets, buildings, structures or other property of any kind, owned or used by any political subdivision within its jurisdiction, or any public improvement or facility maintained by such political subdivision for the use of its inhabitants, without first obtaining the consent of the governing body thereof.

§ 17. The powers granted and the duties imposed in this act shall be construed to be independent and severable. If any one or more sections, subsections, sentences, or parts of any of this act shall be adjudged unconstitutional or invalid, such judgment shall not affect, impair or invalidate the remaining provisions thereof, but shall be confined in its operation to the specific provisions so held unconstitutional or invalid.
